A useful tool for accessing public records

Accurint lets you search using simple and intuitive forms. Just click one of the tabs, fill in the information you have and Accurint will quickly return your results, searching through billions of records to make relevant connections.

Results display in tabular format, letting you identify relevant results easily. Depending on the type of documents you search, you have a choice of what you want to do, for example, run a report; use Relavint™ to visualize relationships; or copy, print or e-mail a record.

If you run a report, you'll be given a choice of how extensive a report you want, ranging from a basic summary to a comprehensive report. Pricing varies depending on type of report requested.
