NOTICE OF CORRECTION
TABLE 1, PRESENT VALUE OF PERMANENT DISABILITY,
WORKERS' COMPENSATION LAWS OF CALIFORNIA, 2014 EDITION

Dear *Workers' Comp Laws of Calif.* subscriber:

DWC has brought to our attention the following error in Table 1 in the 2014 Edition of *Workers' Compensation Laws of California*:

"There is an error on Table 1 of the PV of Weeks Table found in the hard copy of the Workers' Compensation Laws of California 2014 Edition. The Table starts on pg. 1607 of the 2014 Labor Code. The Table reflects 280 wks at a PV of 258.7754 and 281 wks at a PV 253.6458. This differs from information found in earlier publications of the Workers' Compensation Laws of California and information found on the DWC site. This can be verified by reference Table 1 on page 1588 of the 2013 Labor Code. This error extends to all PV references 281 weeks or greater on Table 1 of the 2014 Labor Code."

We apologize for this error and will issue a corrected table in the upcoming supplement to the book.

In the meantime, please use the attached corrected Table 1.

Sincerely,

A handwritten signature in black ink, appearing to read "Robin E. Kobayashi".

Robin E. Kobayashi, J.D.

Part 1. Commutation
TABLE 1
Commutation: Present Value of Permanent Disability

TABLE 1: PRESENT VALUE OF PERMANENT DISABILITY

Use this table to commute, or calculate the determine the present value of, permanent disability benefits. The “Weeks” column refers to the number of weeks of permanent disability being commuted. The “PV” column contains the present value (PV) at \$1 per week of the corresponding number of weeks of permanent disability. A fractional number of weeks of permanent disability may be commuted using interpolation. See Examples A, B and C under Commutation Procedures for an illustration of various types of commutations.

Weeks	PV	Weeks	PV	Weeks	PV	Weeks	PV
1	0.9989	29	28.7465	57	56.0575	85	82.9387
