COLOCATION

MANAGED TECHNOLOGY SERVICES
FROM LEXISNEXIS

Colocation from LexisNexis® Managed Technology Services offers you the ability to utilize our world-class SSAE16 certified Tier III designed data centers to house your equipment of choice.

LEXISNEXIS.COM/MTS

LexisNexis Managed Technology Services Colocation provides physical space with environmental controls for computing environments including humidity and temperature. We offer access controls for entrance to facilities, uninterruptable conditioned power and security certifications. Colocation services are offered considering power and facility availability and can be customized with remote hands support, security escorting, secure tape and media handling with chain of custody, audit support and IP bandwidth/blended internet.

Benefits include:

Shared Resources

When choosing colocation with LexisNexis you are able to share the cost of power, cooling, communications and data center floor space. We support you with 24/7/365 onsite and remote support by our team of skilled engineers with extensive Legal industry background allowing you to make the most out of the investments you have already made in your IT team.

Control

LexisNexis provides you with the physical space to house your equipment while providing you environmental and access controls. You determine and administer your system requirements and maintain complete control over your systems.

Expand Capabilities

Expand your current environment without having to build your own data center, augment your current environment with colocation. Colocation can also help you establish and define availability, recovery point and recovery time objectives. You can also benefit from audit support services from our experienced staff.

Security and Compliance

Colocation with LexisNexis provides you with access to our secure, state-of-the-art data centers which are managed by our highly trained data security specialists. Our data centers are Tier 3 design certified with SSAE 16 and SOC certifications for U.S. and ISO 27001:2013 for international data centers. Managed Technology Services also maintains ISO 27001:2013 and ISO 9001:2008 certifications for the operations and maintenance of the environments globally.

Why LexisNexis MTS

LexisNexis has been the leading data-hosting platform for the legal industry for more than 35 years. LexisNexis Managed Technology Services provides a fully managed virtual cloud, world-class storage, security and network connectivity in our Tier III rated data centers. LexisNexis maintains several certifications and assurance programs including SOC 1 (SSAE 16), SOC 2, ISO/IEC 27001:2013 and ISO/IEC 9001:2008 to ensure we provide the highest quality services in the industry. Our solutions protect critical systems, data and access by leveraging best practices and technology, while providing unparalleled customer care and a wide range of value-added services.
