

LexisNexis® CounselLink®

Choose the Ideal Solution for Your Department

Power in a Flexible Package

One size may not fit all, but one adaptable solution has a proven track-record of matching the diverse needs of corporate legal departments from different industries, operating environments, staffing levels and geographies. LexisNexis® CounselLink® is that solution ... a cloud-based Enterprise Legal Management offering arranged in different packages to cover the full spectrum of capabilities you need.

Selecting the right combination for your Legal Department Operations (LDO) is as easy as 1 - 2 - 3.

1

Choose Your CounselLink Software Application Modules

Matter Management	Legal Spend Management	Legal Hold
Keep productivity high and focused on favorable outcomes	Maintain budget integrity and cost-effective operations	Minimize risks and safeguard the company's reputation

2

Pick a Package Configuration with the Right Feature Set and Levels of Support

ESSENTIALS	ADVANCED	PREMIER
<p>Simple, cost-effective and easy-to-use Best Practice foundation</p> <p>Each Essentials package is a full-featured offering that helps simplify processes, monitor outside counsel compliance, eliminate manual invoice processing and gain insight on all matters.</p>	<p>Flexible, scalable and integrated solution with configurable capabilities</p> <p>Customers with more sophisticated needs value the Advanced package to configure solutions that fit business processes, and gain improved reporting and corporate system integrations.</p>	<p>Comprehensive, unique solution that aligns with enterprise demands through customization</p> <p>For the most complex market and operational situations – such as managing multiple departments and using specialized workflows – you need the customized approach of a Premier package to align with business processes and access higher levels of support.</p>

3

Mix and Match Modules and Packages to Fit Your Needs Today ... and Tomorrow

By combining modules and packages, legal departments can receive the right level of functionality, service and support to pursue outcome and ROI objectives. If requirements change based on a shift in operating environments or departmental growth, be confident that CounselLink software can readily support your evolving needs.

Core Elements of Every CounselLink Package:

Regardless of the combination chosen, your preferred solution includes access to a host of valuable CounselLink capabilities, including these key performance-enhancing items:

- Reporting, dashboard and analytic functions delivering data-based insights as a guide for decisions and action
- Outside firm collaboration via secure sharing of matters, documents, financial details, calendars and contacts
- Strategic Consulting Services that complement internal capabilities with expert assistance
- Best Practices templates and workflows
- 100% matter and legal spend data capture ... down to the line item level
- Benchmarking database resource access representing \$15 billion in legal spend and growing
- Integration with Microsoft® Outlook®, Single Sign-on & Accounts Payable systems
- System configuration support
- Implementation by certified legal experts
- 24/7 support for corporate legal departments and law firms
- Ongoing training and education
- Customer conferences, webinars and networking
