

CourtLink®

Intellectual Property Solutions

LexisNexis® CourtLink® Intellectual Property Solutions

CourtLink® offers a broad range of solutions to help your firm provide better service and litigation support to your intellectual property clients as well as tools to help you grow your intellectual property practice.

Gather the critical litigation intelligence needed for your cases with powerful CourtLink tools, including:

- CourtLink® Strategic Profiles
- CourtLink® Search and Patent Search
- CourtLink® Alerts
- CourtLink®Track
- CourtLink® Document Retrieval

CourtLink Strategic Profiles

Uncover the litigation history of the opposing party, attorney or law firm and/or the judge assigned to your IP cases to help you develop compelling case strategies.

- **Judicial Strategic Profiles:** Understand whether the judge assigned to your case has substantial or limited experience in IP cases, and learn how the judge handled similar cases in the past. Uncover your opposing counsel's experience before the judge pertaining to specific matters.

- **Attorney Strategic Profiles:** Gain insight into an opposing counsel's IP experience and number of published decisions, learn whether the attorney has argued similar cases before a specific judge, and see prior strategies employed, including case resolution.
- **Litigant Strategic Profiles:** Research the litigation history of the opposing litigant or your client to uncover participation in prior, similar IP cases and discern patterns of case resolution.

CourtLink Search

CourtLink offers superior search capabilities to find relevant past and present IP litigation activity, including:

- **Search:** Search by various criteria including litigant name, attorney or law firm, nature of suit, keyword, etc., to locate dockets and documents of interest. Combine federal and appellate courts for a more comprehensive search.
- **NEW!**  **Patent Search:** Search by patent number or class and subclass of a patent to get a list of cases involving that patent number or patent class. Search is based on the actual complaints filed in the cases.

CourtLink Alert

CourtLink Alerts provide automatic email notification of newly filed cases to help you keep up-to-date with IP filings that may affect your practice area and your clients. CourtLink offers the following IP-specific offerings:

-  Patent Number Alert: Be alerted to newly filed cases involving a specific patent number.
-  Patent Class/Subclass Alert: Be alerted to newly filed cases involving a class and subclass of a patent.
- Nature of Suit Alert: Be notified of new IP filings in your areas of specialty.

CourtLink Track

Stay on top of new activity in your cases and keep up-to-date on significant filings in key IP cases with CourtLink Track.

CourtLink Track provides automatic email notification of new developments in existing IP cases of interest to you. New activity-highlighting enhancements make it easier for you to quickly identify changes that have occurred in the case since the last time you received a new-activity notification.

CourtLink Document Retrieval Service

Order documents from all federal and state courts nationwide from the CourtLink Document Retrieval Service, which offers knowledgeable customer support, email order confirmation, and the ability to place document retrieval orders online. CourtLink Document Retrieval Service also has an in-house library of proprietary documents that are immediately available, including all patent complaints from 1/1/2002 forward.

Place your order online at courtlink.lexisnexis.com, via email at DRorders@lexisnexis.com, or via phone at 866.540.8818.

CourtLink IP solutions are part of LexisNexis® Total Practice Solutions, designed to help you excel in the business and practice of law.
