SCOPE AND CONTENT NOTE

Confidential U.S. State Department Central Files, 1960–January 1963

The U.S. State Department Central Files are the definitive source of American diplomatic reporting on political, military, social, and economic developments throughout the world in the twentieth century. This edition consists of the Central Files for the Philippine Republic for the period between 1960 and January 1963. The files are arranged according to the State Department Decimal Filing System, 1960–January 1963. The subjects from the filing system included in this edition are decimal numbers 796, 896, and 996 (the Philippine Republic internal affairs) and decimal numbers 696 and 611.96 (the Philippine Republic foreign affairs and U.S. relations with the Philippine Republic) for 1960–January 1963. The files consist of cables and letters sent and received by U.S. diplomats and embassy personnel; reports on meetings between U.S. and foreign government officials and leaders; newspaper clippings and translations from journals and newspapers; transcripts of speeches; and reports and observations on political, military, and social affairs.

This edition of Central Files for the Philippines Republic begins with a detailed accounting of Political Affairs (796). These files consist of correspondence and other items relating to political developments in President Carlos P. Garcia's Nacionalista Party and the opposition Liberal Party. Garcia's 1960 state of the nation address before the Philippine Congress underscores themes central to his administration: nationalism, graft and corruption, and economic progress.

The Nacionalista Party championed a "Filipino-First" policy calling for nationalization of industry, agriculture, and the press. Monthly reports on developments in Cebu Consular District and many other provincial areas reveal attitudes on leaders of both parties and Philippine reaction to relations between the United States and the Soviet Union. In the 1961 presidential election, the revived Liberal Party built enough of a following to win the presidency for Diosdado Macapagal. In this election, the returns from each polling place were reported by observers as soon as the votes were counted. This system, known as Operation Quick Count, was designed to prevent fraud.

Joint Weeka Reports (796 W) are weekly reports written by U.S. diplomatic personnel that provide brief summaries of both internal and foreign developments. These summaries are based on observations of U.S. officials and translations from newspapers and periodicals. Internal affairs mentioned in the Weeka reports in this edition are the antigraft campaign, Communism at the University of the Philippines, pre-election violence, and the case of Harry S. Stonehill, an American businessman accused of corruption. Foreign developments in Weeka reports pertain to relations between the Philippines and other countries, Philippine participation in the Southeast Asia Treaty Organization, and Philippine reaction to important international events, including regular updates on the War Damage Claims Bill and U.S. base talks, as well as events in Indonesia, Laos, and North Borneo.

Materials in the National Defense category (796.5) cover the affairs of the Mutual Defense Board, the Armed Forces of the Philippines, and the Joint United States Military Advisory Group. Several items address U.S. economic aid to the Philippines in support of the Mutual Security Program.

Economic Matters (896) is the largest category in this edition. Economic Matters documents begin on Frame 0686 of Reel 6 and continue through to Frame 0406 of Reel 13. Relations between the Philippines and other nations of Southeast Asia, namely Japan, compose much of this section. Among the major topics of Asian-Philippine relations discussed are negotiations over the Friendship, Commerce, and Navigation Treaty between Japan and the Philippines and the role of the Philippines in the Association of Southeast Asian States. Other major topics covered in this category include Central Bank decontrol, the sugar quota, and tobacco trade.

Several other categories within the Economic Matters files deserve attention. The Peace Corps category (Reel 8, Frames 0001–0828) provides comprehensive reporting on the work of the U.S. government agency in the Philippines. Financial Matters documents (Reel 9, Frame 0724–Reel 10, Frame 1002) pertain to balance of payments, credit relaxation measures, and devaluation of the peso. Agriculture (Reel 10, Frame 1003–Reel 11, Frame 0782) consists of an extensive accounting of field crops, animal husbandry, and mineral production.

Political Relations between the United States and Philippines Republic (611.96) is the final category in the collection. The issue of jurisdiction over U.S. service personnel in the Philippines was a problem in relations between the two countries. The collection includes files on the War Damage Claims Bill, Radio Broadcasting Agreement, and U.S.-Philippine Air Transport Agreement. Discussion of U.S. military bases is a recurring issue throughout this category.

SOURCE NOTE

Microfilmed from the holdings of the National Archives, College Park, Maryland, Record Group 59: Records of the Department of State, Central Decimal Files, decimal numbers 796, 896, and 996 (the Philippine Republic internal affairs) and decimal numbers 696 and 611.96 (the Philippine Republic foreign affairs and U.S. relations with the Philippine Republic) for 1960–January 1963. LexisNexis has microfilmed all available original documents.

ORGANIZATION OF THE U.S. DEPARTMENT OF STATE DECIMAL FILING SYSTEM

From 1910 to 1963 the Department of State used a decimal classification system to organize its Central Files. This system assembled and arranged individual documents according to their subject, with each subject having a specific decimal code. The decimal system from 1950 to January 1963 consists of ten primary classifications numbered 0 through 9, each covering a broad subject area.

CLASS 0: Miscellaneous.

CLASS 1: Administration of the United States Government.

CLASS 2: Protection of Interests (Persons and Property).

CLASS 3: International Conferences, Congresses, Meetings, and Organizations.

CLASS 4: International Trade and Commerce. Trade Relations. Customs Administration.

CLASS 5: International Informational and Educational Relations. Cultural Affairs. Psychological Warfare.

CLASS 6: International Political Relations. Bilateral Treaties.

CLASS 7: Internal Political and National Defense Affairs.

CLASS 8: Internal Economic, Industrial, and Social Affairs.

CLASS 9: Other Internal Affairs. Communications. Transportation. Science.

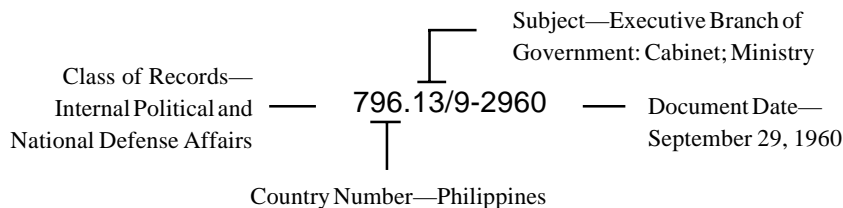

Internal Affairs

For this section of the U.S. State Department Central Files, LexisNexis has microfilmed the documents contained in Classes 7, 8, and 9. Within these classes each subject is defined by a decimal file number. The decimal file number is followed by a slant mark (/). The number after the slant mark (/) refers to the date on which the document was generated. Documents within each decimal file number are arranged in chronological order. The entire decimal file number is stamped on the right side of the first page of every document.

These classes are concerned almost exclusively with the internal matters of individual countries. The class number (7, 8, or 9) is followed by the country number. The number following the decimal point indicates subtopics within the major classifications. The date after the slant mark (/) identifies the individual document.

In a small number of instances, documents were assigned erroneous or incomplete decimal numbers. LexisNexis has included, in brackets, corrected decimal entries. In addition, misfiled decimal number documents have also been included in brackets.

Example, 796.13/9-2960

796.13/9-2960 indicates a document dated September 29, 1960, relating to the cabinet of the executive branch of government (13) in the Philippines (96).

Note: For the convenience of the researcher, wherever a specific classification number totals more than one hundred pages, a breakdown of the material by month and year is provided. When applicable, major subjects have been included with the month and year breakdown.

Foreign Affairs

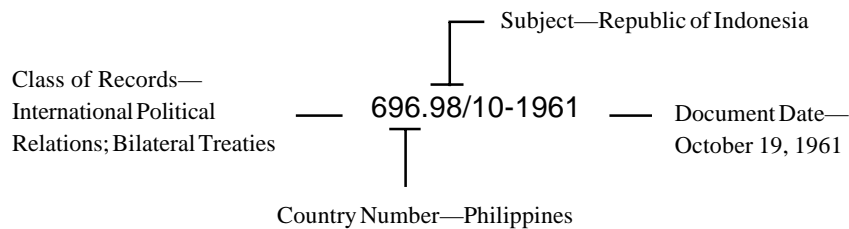

For this section of the U.S. State Department Central Files, LexisNexis has microfilmed the documents contained in Class 6. Within this class, each subject is defined by a decimal file number. The decimal file number is followed by a slant mark (/). The number after the slant mark (/) refers to the date on which the document was generated. Documents within each decimal file number are arranged in chronological order. The entire decimal file number is stamped on the right side of the first page of every document.

In this publication, records classified 696 deal with the foreign policy of the Philippine Republic and its political relations with other nations. Due to the State Department's arrangement of these records, countries assigned numbers below 96 will not be found in this file. LexisNexis, however, has included files dealing with the

political relations between the United States (country number 11) and the Philippine Republic in this publication. In order to find the political relations between the Philippine Republic and countries other than the United States that have a number lower than 96, the researcher should check the Class 6 records for that country. These records can be found either at the National Archives, College Park, Maryland, or in microform publications that LexisNexis has made available to libraries.

In a small number of instances, documents were assigned erroneous or incomplete decimal numbers. LexisNexis has included, in brackets, corrected decimal entries. In addition, misfiled decimal number documents have also been included in brackets.

Example, 696.98/10-1961

696.98/10-1961 indicates a document dated October 19, 1961, relating to the bilateral relations between the Philippines (96) and the Republic of Indonesia (98).

Note: Whenever the documents under a specific classification number total more than one hundred pages, the guide writer provides a breakdown of the material by month and year. When applicable, the guide writer lists, in brackets under the classification number, major subjects that are covered throughout all of the months. The guide writer may list additional major subjects but only under the particular month and year in which they appear.

NUMERICAL LIST OF COUNTRY NUMBERS

- 00 THE WORLD (Universe)
- 01 Outer Space (Aerosphere)

SUBJECT INDEX

The following index is a guide to the major topics in this microform publication. The first number after an entry refers to the reel, while the four-digit number following the colon refers to the frame number at which the subject begins. Hence, 1: 0949 directs the researcher to Frame 0949 of Reel 1. By referring to the Reel Index, which constitutes the initial segment of this guide, the researcher will find topics listed in the order in which they appear on the film. This index uses the terminology and spellings used in the original documents. In order to avoid confusion, the term "foreign relations" has been substituted for the State Department's term "political relations."
