SCOPE AND CONTENT NOTE

By 1862, once-great Indian nations had been severely reduced. Fewer Indian warriors stood against the force of the frontier army and the settler, miner, and cowboy. Those warriors who remained, however, were fierce in their resistance. Sioux, Apache, Modoc, Comanche, Kiowa, and Ute all fought for a way of life that demanded freedom, independence, and proof of manhood in battle. Over the next three decades, they would fight to the death.

Antebellum federal government policy regarded the tribes as independent and sovereign nations. This policy led to an effort to erect a frontier between white settlement and the Indian areas. But by the 1860s, the harsh realities of Manifest Destiny led to a breakdown in this policy. The administration of Indian matters was divided between the Bureau of Indian Affairs and the frontier army. The bureau was responsible for supervising Indian lands, tribal annuities, and communications between the federal government in Washington and the tribal chiefs. Also controlled by the bureau were the Indian agent trading posts, whose purpose was to distribute needed supplies to the Indians. Infused from top to bottom with the spoils system, the dishonest and incompetent Indian agent became one symbol for rallying the tribes against the federal government.

The federal frontier army came into the picture only when trouble developed. When bands would attack a home or stagecoach, or when a tribe went on the warpath, the principal function of the army was to punish. The army of the frontier was an effective fighting force, led by a few able officers. In its wars with the Indians, the army frequently experienced frustration finding itself evenly matched against the mobile Indian cavalry. But eventually the superior technology of the federal military shifted the balance of power in the West.

There was almost incessant Indian fighting on the frontier from the 1860s to the 1880s. These conflicts began during the Civil War with the uprising of the Eastern Sioux in Minnesota, and organized tribal resistance ended with the capture of the Apache leader Geronimo in 1886. This fighting was due to several factors including Indian exploitation by corrupt government agents, white encroachment on tribal lands, and inadequate reservations.

During the Civil War, the Sioux of Minnesota, led by Little Crow, went on the warpath. The tribe was eventually subdued and exiled to the Dakotas. Also in the early 1860s, bands of Cheyenne and Arapaho attacked stagecoaches and settlements in response to extreme conditions on their reservation. They were eventually subdued following the Sand Creek massacre of Indian women, old men, and children by Colorado militia troops under Colonel Chivington. They eventually accepted a reservation in the Indian Territory, but not before a large band was caught bypassing the reservation, by Colonel George A. Custer in 1866, and subdued near the Washita River.

Following the Civil War, confrontation with the Indians opened on several fronts. The most serious conflict was in Montana and pertained to the establishment of the Bozeman Trail, extending from Fort Laramie to the mining areas of Montana and Wyoming. The Sioux leader Red Cloud resented this intrusion on tribal lands; he led his braves off their reservation and repeatedly attacked construction parties and their army guards. Following a peace conference in 1867, the Bozeman Trail was discontinued and the Sioux accepted a reservation in southwestern Dakota Territory.

During the early 1870s the accelerated construction of forts and settlements in the West provoked skirmishes between the federal army and Indian bands. The explosion of white settlement in the West was brought about by the establishment of various westward trails, the relative

tranquility of the West, reports of mining discoveries, and Horace Greeley's call to "Go West, Young Man." This westward movement alarmed the Indian tribes on their ever-shrinking reservations. The most well-known white-Indian conflict began with the rallying of the Sioux and their allies under Crazy Horse and Sitting Bull in Montana. The army response was to send three columns to round up the interlopers and return them to the reservation. One of these columns included the colorful George A. Custer and his infamous Seventh Cavalry. At the Battle of the Little Big Horn, the Indians surprised Custer and a portion of his divided regiment and wiped them out. Following this Indian victory, the Sioux army, which had grown to four thousand warriors, wreaked havoc throughout the northern Plains. But the Sioux did not have the political organization or the commissary to keep their army united. Before long, it drifted into bands to elude pursuit and search for food. The federal army eventually tracked down the various bands and either induced them to return to the Dakota Territory reservation or destroyed them. The power of the Sioux was finally broken, and the leaders were forced to accept defeat and the monotony of reservation life.

In 1877, one of the most dramatic episodes in Indian history occurred in Idaho. The Nez Perce had refused to accept a small reservation and were thus forced into resistance. When federal troops converged on his tribe, Chief Joseph made a dash for the Canadian border. Following a remarkable chase, the Nez Perce were eventually surrounded and caught within sight of the Canadian border. Like so many other conquered Indian tribes, the Nez Perce were shipped to the Indian Territory.

The last Indian tribe to maintain organized resistance were the Apaches, who fought intermittently between the 1860s and 1880s. Led by Cochise, the Apaches were eventually subdued in 1872. But one leader, Geronimo, continued to fight against the federal army until his capture in 1886, which brought an end to the formal warfare between Indians and whites.

The 1890s saw the last gasp of Indian resistance. As the Indians saw their culture and their glories fading, they turned to an emotional religion that emphasized the coming of a Messiah and featured the "ghost dance." Indian agents on the Sioux reservation attempted to suppress the "ghost dance," for they feared this would lead to an outbreak of hostilities. They called for assistance from the federal army and several Sioux bands fled to the Bad Lands area. These bands were eventually caught. Outnumbered and outgunned, hundreds of Indians were killed at the Battle of Wounded Knee. So ended the once proud, martial tradition of the Indian. The next few decades would see a push to assimilate Indians into white culture.

To some, the Indian wars do not represent a proud period in American history. Humanitarians of the 1870s and 1880s viewed the dispersal and plight of the Indian tribes as a cause célèbre for another crusade along the same lines as the abolition movement earlier in the century. Their pointed writings portrayed the federal soldiers as the interlopers in Indian affairs, and as "butchers, slaughtering peaceable Indians and confiscating Indian lands."

But there was another view of the cavalry and its soldiers. Following the Indian massacres of settlers and soldiers, and particularly inspired by the hagiography of "Custer's Last Stand," the cavalry soldier was adopted by the general public as a hero. The sound of the bugle and the thundering charge of the cavalry, the rescue of the wagon train and the fight against all odds, were impressed in the public's collective memory. This heroic stereotype was strengthened by the writings of contemporary officers and enlisted men, their wives, newspaper correspondents, and penny novelists.

Each view of the frontier cavalry soldiers contains a mix of truth and fallacy. It is the responsibility of the historian to wade through the mass of information and propaganda in order to develop a balanced presentation between the two views. This microfiche collection will allow the researcher access to a unique collection of books.

Summary

The struggle between whites and Indians has been a subject of much fascination. There has never been a compilation of this nature available to the historian, however. The materials comprising this microfiche collection will provide the researcher and/or historian with a unique look

into America's western past. Individually and collectively, these histories and narratives constitute a source of great historical value. Many of the items are first-person accounts that chronicle the trials and tribulations of army life on the frontier. The histories and narratives describe the wonder and excitement of living on the frontier, meetings with Indians, the drudgery of camp life, the boredom of garrison duty, and details of day-to-day existence in inhospitable parts of the West. Attitudes are here recorded with a fullness found in very few other kinds of sources—attitudes toward army life, toward officers and fellow soldiers, toward the Indian enemy, and toward the political questions of the day. Comparable perspectives are also available concerning officers (and bureaucrats), insights into relations among themselves, efforts to secure promotion, and motivation behind the planning and conduct of operations. Such characteristics make these histories and narratives one of the most useful sources available to scholars.

ARRANGEMENT OF MATERIAL

Items in this publication include selected reference materials, official histories, printed army headquarters reports, and personal reminiscences regarding Indian-white conflict and military life on the western frontier between 1862 and 1898. The individual items have been arranged by section: Indian Wars of the West and Frontier Army. These sections consist of further subdivisions of items. The Indian Wars of the West section includes a general references subdivision and subdivisions relating to various Indian tribes and one geographical category (Plains, 1863–1869). For the ease of the user, specific subdivisions for campaigns and specific battles have been included for the Apache and Sioux. The Frontier Army section also has a number of subdivisions relating to general references, military posts, rosters, and army life reminiscences. All items in each section are arranged in alphabetical order by author's last name. The individual fiche are numbered consecutively from 1 to 606.

Common to all specific items is the following information:

Fiche 185. Boyd, Robert K.

The Battle of Birch Coulee; A Wounded Man's Description of a Battle with Indians. [Eau Claire, Wisconsin, Herges Printing Company,] 1925. 23pp. DLC.

Battle of Birch Coulee, ID; Renville County, MN; Sioux.

Item	Explanation

DLC	The source of the item by OCLC symbol. A list of the symbols can be found in the List of Contributing Institutions.

Battle of Birch Coulee, ID; Renville County,
MN; Sioux

List of subject entries that are highlighted in the
individual items.

Also listed, when applicable, the term "Roster" or "Casualty List" is included following the page
count for the item.

LIST OF CONTRIBUTING INSTITUTIONS

The following is a list of the abbreviations used for the institutions that contributed items to this microform publication. When applicable, the OCLC (Online Computer Library Center) symbol was used to identify each of these institutions in the Fiche Index.

<u>OCLC Symbol</u>	<u>Name of Institution</u>
DLC	Library of Congress, Washington, D.C.
KSH	Kansas State Historical Society, Topeka, KS
MHR	U.S. Army Military History Institute, Carlisle Barracks, PA
NHT	Nebraska State Historical Society, Lincoln, NE
WIH	State Historical Society of Wisconsin, Madison, WI
WYZ	Wyoming State Library, Cheyenne, WY

SOURCE NOTE

This micropublication is based on the official and literary histories and personal narratives listed in a variety of bibliographic resources. The primary bibliographies consulted include:

Prucha, Francis P., *A Bibliographical Guide to the History of Indian-White Relations in the United States* (Chicago: University of Chicago Press, 1977).

Reber, Bruce, *Special Bibliography 17: The United States Army and the Indian Wars in the Trans-Mississippi West, 1860–1898* (U.S. Army Military History Institute, Carlisle Barracks, PA, 1978).

Additional bibliographies and online catalogs were consulted.

The books and pamphlets included in this microfiche publication have been collected and collated from a number of institutions. The source for each item has been listed in the Fiche Index under each item by its Online Computer Library Center (OCLC) library code. A list of both the OCLC symbols and the institutional names is available in the List of Contributing Institutions.

EDITORIAL NOTE

The books and pamphlets collected in this publication have been filmed in their entirety and were printed prior to 1931. Every effort has been made to include the original edition of each item. Revised editions have been filmed in lieu of original editions when necessary. In a very few cases both an original edition and a revised edition have been included. This has occurred when a large portion of the original has been revised significantly. Periodical literature, newspapers, broadsides, and unpublished manuscripts have not been included in this micropublication.
