NOTE ON SOURCES

The documents in this collection are from Record Group 59, Records of the Department of State, Central Files: France. The decimal numbers microfilmed include 851.40–851.9243. These documents can be found at the National Archives, Washington, D.C.

The Confidential Correspondence File materials were separated by the State Department due to their highly classified nature. These materials have since been declassified, but have not been reintegrated into the Correspondence File materials.

EDITORIAL NOTE

University Publications of America (UPA) has microfilmed these files in their entirety. Only duplicate copies of documents have been excluded from this micropublication. Decimal citations to documents enclosed by brackets were misnumbered by the Department of State. UPA has filmed these documents as they are filed at the National Archives. The correct decimal number with the correct subject citation is enclosed by the brackets.

DECLASSIFICATION NOTICE FOR USERS OF THIS PUBLICATION

Documents in this microfilm publication were declassified by appropriate authorities of the Federal Government in accordance with the provisions of current Executive orders. Copies of documents bearing national security classification markings which are reproduced from this publication should be labeled as follows:

DECLASSIFIED
E.O. 11652 or E.O. 12356
NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Documents determined to contain still sensitive national security classified information were withdrawn prior to the time of filming. Any withdrawn document is briefly described on a "Withdrawal Notice" filed and filmed in its place. Some withdrawn documents may have been reviewed again, declassified and released to the public subsequent to the preparation of this publication. Inquiries about such releases should be addressed to:

INTRODUCTION

The documents in this microfilm collection have been obtained by University Publications of America (UPA) from the Central Files of the General Records of the Department of State, Record Group 59. These records are under the jurisdiction of the Legislative and Diplomatic Branch of the Civil Archives, National Archives and Records Administration, Washington, D.C., where they are housed. UPA has published these records in cooperation with the National Archives.

The Central Files of the General Records of the Department of State contain the bulk of the records accessed in Record Group 59—some 82 percent of this Record Group according to a National Archives estimate. The Central Files contain all instructions sent to and all correspondence received from diplomatic posts abroad by the Department of State. In addition, most of the State Department's internal documentation, as well as correspondence between the Department and other federal departments and agencies, Congress, and private individuals and organizations are included in the Central Files.

The records filmed from the Central Files for this collection are from the Internal Affairs subject classification of the Central Files. They include telegrams, airgrams, instructions, inquiries, studies, memoranda, situation reports, translations, special reports, plans, and official and unofficial correspondence.

These documents illuminate France's customs, economy, finance, agriculture, natural resources, industry, communications, and media. Because of the broad scope of these records, they both supplement and complement the coverage offered by the Department of State's own *Foreign Relations of the United States* series.

This collection has been microfilmed directly from the records held at the National Archives, Washington, D.C. As such, the records reproduced herein represent the best available copies. UPA is proud to make this collection available for your research.

ORGANIZATION OF THE DEPARTMENT OF STATE'S DECIMAL FILING SYSTEM

From 1910 to 1963, the Department of State used a decimal classification system to organize its Central Files. This system assembled and arranged individual documents according to their subject with each subject having been assigned a specific decimal code.

The decimal system from 1930 to 1949 consists of nine primary classifications numbered 0 through 8, each covering a broad subject area.

CLASS 0: General. Miscellaneous.

CLASS 1: Administration, U.S. Government, including the Department of State and the Foreign Service.

CLASS 2: Extradition. The negotiation, application, and interpretation of extradition treaties and individual extradition cases.

CLASS 3: Protection of Interests. The protection of private and national interests.

CLASS 4: Claims. The negotiation, application, and interpretation of treaties on claims and individual claims cases.

CLASS 5: International Conferences (Congresses), Multilateral Treaties, Disarmament, League of Nations, United Nations, and Inter-parliamentary Union.

CLASS 6: Commerce, Customs Administration, and Trade Agreements.

CLASS 7: Political Relations of States, including diplomatic and consular representation and bilateral treaties, conventions, and agreements.

CLASS 8: Internal Affairs of States.

For this publication, University Publications of America (UPA) has micro-filmed the documents contained in CLASS 8. Within this class each subject is defined by a decimal file number. The decimal file number is followed by a slant mark (/). The number after the slant mark refers to the date on which the document was generated. Documents within each decimal file number are arranged in chronological order. The entire decimal file number is stamped on the right side of the first page of every document.

CLASS 8. Example, 851.40/9-1848

This class is concerned almost exclusively with the internal matters of individual countries. The class number (8) is followed by the country number. The number following the decimal point indicates subtopics within the general category of internal affairs. The date after the slant mark (/) identifies the individual document. Thus, 851.40/9-1848 indicates a document dated September 18, 1948, relating to social matters (40) in France (51).

Note: For the convenience of the researcher, whenever the pages represented by a specific classification number total more than one hundred, a breakdown of the material by month and year is provided.

SUBJECT INDEX

The following index is a guide to the major subjects of this collection. The first Arabic number refers to the reel, and the Arabic number after the colon refers to the frame number at which a particular subject begins. Hence 3: 0934 directs the researcher to the subject that begins at frame 0934 of Reel 3. By referring to the Reel Index that constitutes the initial section of this guide, the researcher can find the main entry for this subject.

The Department of State's phrasing as used in its classification of documents is reflected in the terms used for entries in this index.
