

# Elsevier Full-Text Journals at *lexis.com*<sup>®</sup>

Now 1,400+  
Publications!

Elsevier publications serve more than 30 million scientists, students, and health and information professionals worldwide. Now you can tap into these valuable scientific resources at *lexis.com*<sup>®</sup> and:

- Find pre-eminent experts, their writing and theories. (Even uncover connections among experts.)
- Track medical, health, environmental, pharmaceutical, genetics, etc. companies—their intellectual properties and their research pipelines.
- Conduct prior-art research.
- Gain insights into highly complex technical and scientific issues.
- Determine standards of care as well as mitigating conditions.

Do all of this—and more—in a familiar *lexis.com* environment ...

## Here's How To:

### Retrieve a Full-Text Article (and the PDF) By Citation

(You'll find **embedded graphics**—schematics, charts and illustrations, etc.—that can be printed/downloaded<sup>1</sup> with LexisNexis<sup>®</sup> printing functions. Or open the graphics and use local PC functions. Then link to the PDF,<sup>2</sup> which can also be printed/downloaded via PC functions.)

1. Click the **GET A DOCUMENT** tab on the *lexis.com* menu.
2. Click **Citation Formats**.
3. Enter your publication name or partial name, e.g., *life sciences*. Click **Find**.
4. Click the citation link. Add year, volume, number and page range. Click **Get**.

<u>(2007)</u>	<u>80</u>	<u>LIFESC</u>	<u>24-25</u>	<u>2375-2379</u>
Year	Vol.	Short Name	No.	Page Range

### Select Elsevier Full-Text Sources at *lexis.com*

Elsevier Full-Text Journals are available on all *lexis.com* state law menus and in a variety of practice-area menus. Or click the News & Business tab. Plus choose:

- **Group sources by time frame**—Elsevier Full-Text Journals Most Recent Two Years, All Archive Elsevier Full-Text Journals or All Elsevier Full-Text Journals
- **Topical group sources**—Turn the page to see all 20+ topical group sources.
- **Your own source combination**—Just check the boxes next the sources you want to search—across menu screens, up to 50 sources. Your results screen will show you the results for each retrieved source.
- **Single source**—Each journal is a separately searchable source. Click the **FIND A SOURCE** tab and enter a publication name or partial name, e.g., ENTER: *polymer*

<sup>1</sup> According to your LexisNexis subscription agreement

<sup>2</sup> Separate document-access charge in addition to the transactional search charge

## Search

Once you select a single or group source, use the LexisNexis commands you're familiar with, e.g.:

**SOURCE:** Elsevier Full-Text Journals, Most Recent Two Years

**ENTER:** *papillomavirus OR hpv /5 vaccin!*

You can also use the **FOCUS™ feature** to refine your search. For example, to focus your vaccine search to discussions of the duration of the vaccine's immunological response, move to the FOCUS box at the top of your results screen. Enter your focus terms, e.g.: *AND immun! /5 duration OR long OR length*

Searching **topical group sources** can also refine your research. For example, to find only neurological journals:

**SOURCE:** Elsevier Neuroscience Full-Text Journals

**ENTER:** *frontotemporal dementia OR FTD /20 diagnos!*

You can also search specific journal document segments. For example, if you'd like to restrict your search to **journal titles**, you can use the TITLE or HEADLINE segments:

**SOURCE:** Elsevier Full-Text Journals, All

**ENTER:** *TITLE(papillomavirus OR hpv AND vaccin!  
AND immun!)*

or

**ENTER:** *HEADLINE(papillomavirus OR hpv AND vaccin!  
AND immun!)*

To find **articles by author**, use the AUTHORS or BYLINE segments:

**SOURCE:** Elsevier Full-Text Journals, All

**\*ENTER:** *AUTHORS(victor /3 frankenstein)*

or

**\*ENTER:** *BYLINE(victor /3 frankenstein)*

\*Fictitious name, used for illustration purposes only
