Report Builder – Create comparative country reports

Tracker Data – Unique traffic-light system indicating the varying status of individual Directives across 20 Member States

No steps to implementation taken

Implementation in progress

Directive implemented

National Legislation – links to original implementing legislation

'It is incredibly useful to have summarised in one place all the local implementing measures of EU Directives. Thanks!'

'Love the national summaries – absolutely fantastic!'

Magic Circle Law Firms, August 2007

This is a tool that helps a competitive firm like us stay highly competitive

US Law Firm, London, November 2008

My Alerts – set up alerts to deliver up-to-the-minute updates on the developing status of Directives of interest to you and your clients

Inside Track – delivers a general Directive summary and specific country information with key date-by-date analysis charting progress towards implementation written by our expert team

No other product in the market can deliver ALL this:

Indispensable tracking and expert analysis of the implementation status of EU Directives by our in-house team of EU law editors, qualified in the jurisdictions of the UK, Germany, France, Spain and Poland and working closely with our Business Units in France, Germany, Austria, Italy, Poland and The Netherlands.

Completeness and accuracy – our team use only trusted and checked information from official Member States' sources, meaning you are assured the most up-to-date and accurate information available.

Up-to-the-minute alerts provide updates to the implementation status from pre-consultation to enactment across key practice areas – as and when they happen – no other product does this.

EU Tracker: Community area – Articles on hot topics in EU legislation from our experts, a glossary of EU law terms and concepts and the ability to post your firm's documents on key practice areas.

Seamless links to LexisNexis® Butterworths – the UK's most comprehensive online research library. Fully integrated for the first time to offer you the comprehensive library of all EU legislation, cases, treaties and materials.

EU Tax Cases Tracker – is an additional paid for module which tracks the progress of tax cases through the national courts and provides unique analysis of the impact of cases on Member States.

Example Key Directives with potential impact on your clients

Directive 2007/04 Payment Services establishes an EU services area in which all payments are treated like national services, the Single European Payment Area (SEPA) will require profound changes in national legislation in the area of financial services.

Directive 2004/35 on environmental liability – first European legislation applying the principle that the polluter pays for the environmental damage caused.

Directive 2005/60 on Money Laundering – compels organisations such as legal, accountancy and financial firms to deploy more effective client identification screening processes.

The EU Tracker team consists of an in-house team drawn from our businesses across Europe
