

CourtLink® Single Search

Find and Evaluate Expert Witnesses in Record Time

CourtLink® Single Search allows you to conduct simultaneous searches on experts through our unparalleled collection of more than 85 million dockets and more than 3 million court-filed documents from both federal and state courts. You can also review the retrieved dockets and documents—all for a fraction of the cost and time it would take to do those searches and retrieve the dockets and documents independently.

Results returned in your search can then be filtered, at no additional charge, to narrow down the dockets and documents to particular case types, jurisdictions, specific search terms and more. Start your search as broadly as you need, and then work within your results set to find just what you need.
