MORE

Litigation is seldom a linear process. Every case is touched by many team members—each focused on different, disparate tasks. Unlike West, **LexisNexis provides access to integrated tools and content, mapped to the litigation life cycle, to facilitate the entire process, producing greater case insight leading to winning strategies.** With the LexisNexis services, your research is enhanced by our collection of materials and exclusive content, unparalleled in their breadth, depth, and volume.

Only LexisNexis ...

- Offers LexisNexis® Total Litigator—a one-of-a-kind tool built by litigators, for litigators, to work the way they do. It covers all of the tasks performed throughout a case and suggests sources, so you can focus your time developing the case strategy—not looking for sources.
- Gives litigators one place for case work-in-progress to be accessed, shared and automatically connected to the people, issues and research in the case with CaseMap® case analysis software.
- Provides the most comprehensive set of expert witness records, case outcomes, public records and court-cited legal analysis from leading practice area experts.
