More resources on campus

Your LexisNexis® Account Executives are fully trained on getting you up and running on Web Courses quickly.

• See how quickly you can set up your online courses and scheduling.

More service

It's more than just a great product

• We provide service from setup to answering questions about how to make changes to course assignments.

More help in transitioning

Thinking about switching to LexisNexis Web Courses?

• Transferring to Web Courses is fast and easy, and your Account Executive is there to help.

LexisNexis® Web Courses: New Enhancements

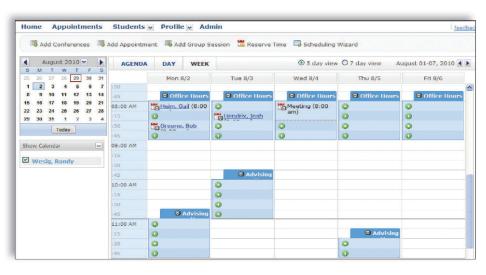

Save time and provide a central, convenient location for all your course materials and assignments

The new bulk appointment scheduler now makes scheduling appointments even easier.

Bulk appointment scheduling and seamless integration with Microsoft® Outlook®:

- New bulk appointment scheduling capability allows you to set a week's worth of appointments from a single screen
- Print a daily calendar
- Integrates seamlessly with Outlook and other iCal® application programs, so you and your students can adjust from whatever system you use
- Instantly see which students have signed up and which appointments are still available
- Electronic "sign-up sheets" for students

SafeAssign[™]: This powerful, automated plagiarism checking feature helps give you a comprehensive and understandable report from which you can evaluate results. This functionality replaces the tedious, manual method of plagiarism checking, saving you valuable time.

- Material is included from the top #100 most cited law reviews and journals from the last ten years
- Submissions are checked against content from the following four databases:
- The Internet
- ProQuest ABI/Inform database
- The Global Reference database from Blackboard,
- And exclusive to SafeAssign the Web Courses Institutional database, allowing you to compare across sections within a law school as well as comparing papers across all law schools that use SafeAssign
- The Originality Report gives you detailed results of the matching process

Leverage new technology: Offer alternatives to traditional presentation methods and increase retention.

Engage your students through multi-media integration and enhance their learning experience by allowing them to collaborate.

Multi-media "mashups"

- Give you the ability to combine different types of content from several sources to enhance the interactive learning experience
- Allow you to enhance content with powerful media clips from sources such as:
- YouTube™
- SlideShare®
- flickr®
- all without leaving Web Courses
- Emphasize the importance of *Shepardizing*™ with a powerful YouTube video clip that students will remember
- Show powerful pictures that portray the scene of an accident
- Integrate a deposition video that students can dissect and critique; where they can assess the demeanor, behavior and appearance of the parties
- Incorporate your own videos into the course material

Wikis: Wikis encourage online collaboration and allow you to compare versions and evaluate contributions.

- Great for student assignments as well as for collaborating with other faculty
- Powerful timesaver for group projects and Moot Court competitions
