The LexisNexis® Due Diligence Dashboard

Grant Management Professionals' one-stop-solution for critical assessment information

Are you a grant management professional trying to:

- Conduct pre-grant assessments that ensure funds are granted to deserving recipients and used for the purposes intended?
- Protect the reputation of your organization by assuring the integrity of grant recipients?
- Capture a deep level of financial, legal and background information associated with each of your grant applicants?

LexisNexis[®] *Due Diligence Dashboard* helps you:

- Vet candidates to determine their general qualifications to receive funds and put them to effective use including review of ownership, operations and key management
- Assess potential corruption risk by determining the relationship of the proposed grant recipient with specific government officials, including PEPs
- Mitigate the risk of unknowingly funding a terrorist organization by checking watchlists and blacklists
- Identify potential conflicts of interest by uncovering relationships between people and entities, and entities and other entities
- Assess the proposed grant recipient's reputation for integrity and uncover any criminal prosecutions, investigations or sanctions
- Develop insights that lead to an opportunity for dialogue between your organization and the grantee about the health of projects you both want to succeed

Gain easy access to the critical information you need: No more toggling between different content resources running multiple searches looking for answers!

The LexisNexis Due Diligence Dashboard Advantage

- News, Negative News, Non-English News and Financial Distress News–20,000+ continuously updated global news sources from 160+ countries; newspapers, wires, leading business publications, consumer and popular magazines, trade pubs, radio and television transcripts and blogs.

Due to the nature of the origin of public record information, the public records and commercially available data sources used in reports may contain errors. Source data is sometimes reported or entered inaccurately, processed poorly or incorrectly, and is generally not free from defect. This product or service aggregates and reports data, as provided by the public records and commercially available data sources, and is not the source of the data, nor is it a comprehensive compilation of the data. Before relying on any data, it should be independently verified.
