

## **How can I find the assets an individual currently owns? (April 8, 2013)**

By Rachel Baarz, Business Insight Solutions Consultant

The Public Records Current Asset Report (People) is a new offering that has been added to the Public Records tab. The Current Asset Report (People) searches across public records and then provides information on the assets an individual currently owns including:

Real Property Records, FAA Aircraft as well as Motor Vehicle Registrations and Watercraft (if the customer has a permissible use for these files\*)

Remember, only those assets titled in the name being searched will appear in the Current Asset Report (People). Use LexisNexis® public records to locate the name of a spouse, relative or other individual residing at the address with the individual being searched and then also run those names through this report to determine if they own assets as well.

\*You must have a permissible use to search these sources. Laws applicable to use of this product include the Drivers' Privacy Protection Act and related state laws (DPPA) and the Gramm-Leach-Bliley Act (GLBA). The data regulated by the DPPA and the GLBA may be used only for the permissible uses, e.g., litigation, fraud detection, etc., that you select from a list prior to searching. By selecting a permissible use prior to searching, you are certifying that the data returned to you will be used only for that purpose. The data provided to you by use of this product may not be used as a factor in establishing a consumer's eligibility for credit, insurance, employment or other purposes identified under the Fair Credit Reporting Act (FCRA).
