

News & Business Content Bulletin

May 2013

USA

PUBLISHER: Ubiquick SAS

PUBLICATIONS INCLUDED: Reportlinker

Reportlinker is a database providing selected links to online industry reports, company profiles and market statistics that are often missed by leading search engines. Sources are both public and private and include government, investment, and national statistics agencies, plus trade unions and embassies. Proprietary metadata are added to help users identify the most relevant content among the over 20,000 listings added daily. Public reports are supplemented with access to additional premium content acquired through Reportlinker's business relationships.

PUBLISHER: Franchise Information Services, Inc.

PUBLICATIONS INCLUDED: FRANdata Franchisee database

FRANdata Franchisee database provides information that helps franchisors benchmark and improve their operations, and lenders to underwrite franchise loans. It provides investors with due diligence information to support investment decisions, and helps suppliers of all kinds to market to franchise businesses. The information provided by the FRANdata Franchisee database supports business decisions and the activities of businesses operating in and around the franchise world.
