Reportlinker (June 2013)
By Jodi Kreshover, Business Insight Solutions Consultant

Reportlinker is database providing selected links to online industry reports, company profiles and market statistics that are often missed by leading search engines. Sources are both public and private and include government , investment, and national statistics agencies, plus trade unions and embassies Proprietary metadata are added to help users identify the most relevant content among the over 20,000 listings added daily. Public reports are supplemented with access to additional premium content acquired through Reportlinker's business relationships.

Some examples of sources:

- Plunkett Research
- Visiongain
- IBISworld
- ICD Research
