Search

Search with “terms & connectors”

Just enter your words and connectors in the red search box, e.g., *same sex! W/10 marriage*, and select **Search**. Lexis Advance automatically interprets search commands such as ! and * to truncate words and W/n, OR, AND, &, etc. For help selecting connectors, select the **Filters** pull-down menu in the red search box and select **Advanced Search**.

Please note: Lexis Advance ignores certain “noise words” in your **query** but counts these noise words when **determining the proximity of terms** in a document. So, broaden your proximity connectors. For example, consider searching W/10 instead of W/5. For W/p and W/s, consider W/75 or W/25, respectively.

Note: Only the AND and & connectors work in Lexis® Web.

Search a specific source

If you know the source: Enter a partial **title** in the red search box, which makes source suggestions. Select to add your title to a search. Select **Get Documents** to retrieve available source documents. Select **Table of Contents** to view a source’s TOC.

You can also browse and search sources:

1. Select **Browse** in the black Lexis Advance header and select **Sources**.
2. Select **All Sources**. The screen above displays.
3. Enter a partial title in the Sources search box. (Or browse titles alphabetically, by content types, jurisdictions, etc.)
4. Select a **title link**. Actions display. You can **Add to filters** to add the source to your search or **Get Documents** to retrieve all available source documents. Also create a **Publication Alert** for many sources. To get source details, such as update schedule, select the ⓘ icon. To select all sources on the Browse Sources screen, click the **Add All These as Search Filters** button

Combine sources/search favorite sources

To combine sources:

1. Enter a **partial source** name in the red search box. The word wheel will make suggestions. **Select a source**.
2. Repeat to add more sources to your search. The source combination is saved automatically in **Recent & Favorites**.

View recent searches and **create Favorites**:

- Select the **Filters** pull-down menu in the red search box and select **Recent & Favorites**.
- View recently searched sources, combinations, legal topics and pre-search filters.
- **To create a Favorite:** Select the star next to the title. Once a Favorite, the item remains in your Recent & Favorites list and Favorites pod.

Favorites can include sources, source combinations, legal topics and prefilters. The Favorites pod displays on the Lexis Advance home page for quick access.

2. **Results that reference** your citation.

Follow screen instructions to choose document type and formatting, delivery method, etc.

Find a full-text case by name

The Lexis Advance red search box suggests the names and citations of **top-cited cases** and many **U.S. Public Laws** and **popular state laws**. If you begin to enter party names or a statute name, the search box will make suggestions automatically, e.g., ENTER: *roe v wade*.

Choose a narrower or expanded result set when you enter party names. A more narrow, default option returns cases that find plaintiff and defendant names. Click **Actions** on your results screen, (not shown) and select **Expanded Results** to view cases with plaintiff or defendant names as well as exact matches with the party names reversed.

You can also find cases by searching with the NAME segment.
ENTER: *NAME (roe and wade)*

ENTER: *shep:800 f2d 111* then select **Search**.

Finally, we do not consider the special case where an employee is about to vest in pension benefits as a result of his age, rather than years of service, see 1 Mamorsky, supra, at § 5.02(2), and the employer fires the employee in order to prevent vesting. That case is not presented here. (interfered with employment)
