# Lexis® Learn | Elevate Your Classes

## What is Lexis® Learn?

Lexis Learn is a new interactive learning platform to supplement your current research curriculum. It's designed to help students learn legal research fundamentals outside of class so you can focus on in-depth content in class.

## How will Lexis Learn Enrich my Class?

**Relevant**—video tutorials cover first year core legal research skills.

**Focused on research skills**—skills learned can be applied to any research system.

**Engaging**—interactive design fosters learning and appeals to millennials.

**Flexible**—assign any or all video modules to students for completion outside of class freeing up class time for deeper instruction.

**Track & Assess**—a powerful Dashboard includes detailed analytics to track completions and evaluate students' understanding of core research skills in Lexis Learn: e.g., Assess student progress through detailed analytics across all video tutorials assigned, or by a specific tutorial. For detailed information on Analytics, click the **Help** button in Lexis Learn.

## Students Self-Enroll

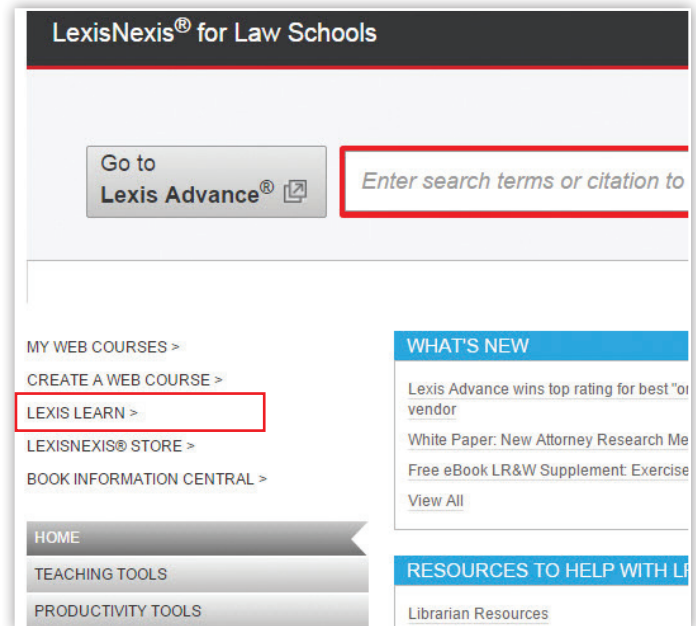

Lexis Learn makes it easy for students to self-enroll and complete the modules you've assigned. After signing into [lexisnexis.com/lawschool](http://lexisnexis.com/lawschool) and selecting Lexis Learn, students select their professor's name and name of the class. The modules the professor added to the class will display.

## Support

Use the Help button in Lexis Learn for detailed product information and instructions. Contact your LexisNexis® Account Executive for further information.

## How to Access & Assign Modules

- Step 1** Go to [lexisnexis.com/lawschool](http://lexisnexis.com/lawschool) and sign in using your Lexis Advance® ID and password.
- Step 2** Click **LEXIS LEARN** from the menu on the left.
- Step 3** Click **Create a Group** (Class).
- Step 4** Edit your **Group** (Class) e.g., "LR&W Section 1" and optional description.
- Step 5** Click the **Add** button to select the video tutorials you want to assign.

To view modules, select **Preview Modules** under My Classes.
