**Use Term Navigation,** found in the header of a document in the Jump To pull-down menu, to easily navigate by clicking individual terms or **the search string** if it's found in the document.

**Retrieve future effective versions of statutes with the citation.** Future effective amendments and appeals are connected to the current effective version of a statute or a code. Now, if you have the citation, you can enter it in the red search box, and locate the future effectives and updated section previews of the statute as well as the full text.

#### Visual enhancements and greater efficiency

In response to customer feedback, we've fine-tuned the Lexis Advance visual style in subtle ways. At the same time, we've added helpful features to save you effort.

**Deliver documents more easily—your way.** Print, download and email delivery options are now consolidated in one menu for quicker access. And now Lexis Advance delivers Microsoft<sup>®</sup> Word documents faster than ever.

Plus now you can **deliver documents to Dropbox** to share with your team. This functionality is widely available. If you do not see the Dropbox icon in your delivery options, check with your Lexis Advance account administrator or your LexisNexis<sup>®</sup> representative.

In addition, when you go to the Narrow By filters on the left, it's easier than ever to **add federal district and circuit court filters**.

**The familiar bell Alert icon is back.** You'll see the bell icon instead of the alarm clock icon at the top of many Lexis Advance screens.

Just click the bell icon to create an Alert that reruns your search and delivers results automatically at the frequency you request.

**Search Within Results—and see your search string grow.** Now as you enter search words in the **Search Within Results** box on your results screen, it grows with your search, i.e., you can display multiple lines of search text if needed.

Keep your research documents handy with larger work folder capacity and flexibility. Now you can save up to 2,000 individual items per Lexis Advance work folder for reference and collaboration. We've also added a **recycle** bin so you can retrieve previously deleted items before the system deletes content that reaches its time limit. Recycle bin documents are held for 30 days and don't count against your total.
