## Added Document Flexibility

### New design makes adding and editing annotations easier

The new **Notes** tab displays the annotations\* you make throughout a document—top, middle or bottom—in the right margin for faster reference. Quickly view (or hide), edit and delete annotations. Annotations remain handy at all times. Plus, the Notes tab “floats” with you as you scroll throughout the document. Open it at any time.

You can highlight and annotate documents in all content types, even news. And highlighting and annotations are included when you deliver (print, email and download) documents. Link to annotations included at the bottom of full-text documents delivered via PDF.

\*Ask your LexisNexis account administrator if Lexis Advance annotation features are available in your organization’s subscription.
