

LexisNexis® CaseMap® 13

THE IMPROVED CASEMAP® – MANAGE CASE ANALYSIS WITH EASE

MINIMIZE MANUAL ENTRY TIME AND ERRORS WITH
INNOVATIONS FROM LEXISNEXIS® CASEMAP® 13

LexisNexis® CaseMap® software connects and manages case-essential information. The following litigator-driven advancements support even faster determinations.

REDUCE ERRORS DUE TO MANUAL ENTRY WITH OBJECT RECOGNITION

This enhancement automatically identifies people, places and organizations in your case facts.

The screenshot shows a software window titled "Send To CaseMap - New Fact" with a sub-header "Step 2. Edit the CaseMap Fact". The main text area contains a document snippet with several entities highlighted in green: "ABI", "Express Personnel", "Douglas P. Wickham", and "Hatch, Little & Bunn". A sidebar on the right lists recognized objects: "Philip Hawkins" (Type: Person, Short name: HawkinsP) and "Elm Street" (Type: Person, New object will be added to CaseMap). A dialog box at the top asks "Would you like to recognize objects within the selected text" with a "Yes" button. Below the main text area is a "Favorite Fields" table and an "Issue Linker" section.
