

Nearly 140 Legal Research and Writing programs rely on the Interactive Citation Workbook

Available in both **ALWD** and **Bluebook** versions, the annually revised **Interactive Citation Workbook** publications use a building-block approach to learning citation. Individual chapters include explanatory text with examples, a checklist summary of the text, and a citation exercise for practicing and reinforcing the rules covered in the chapter.

Students can complete a citation exercise either in their **Interactive Citation Workbook** or online in the **Interactive Citation Workstation**. Doing the exercises online provides immediate feedback for both correct and incorrect answers. For incorrect answers, references to the citation rules needed to correct the answer help students become familiar with using the citation guide as a reference and further enhance the learning experience.
