

Collect more outstanding revenue
in less time.

Start collecting revenue that is owed to your agency more efficiently and effectively. LexisNexis®—a leader in debt recovery solutions—offers a comprehensive suite of tools that address all phases of collections. LexisNexis® Revenue Recovery Solution enables you to segment and prioritize your accounts, locate and contact debtors, and monitor for updates to critical account information—so you can stop searching and start collecting.

Enhance information and prioritize accounts

Knowing more information about your accounts enables you to better prioritize your collection efforts. The top 10% of prioritized accounts typically generate 10 times more revenue compared to the bottom 10%. LexisNexis Revenue Recovery Solution provides more complete information on accounts, enabling you to reduce the amount of time and cost spent locating debtors and to focus your efforts for improved resource allocation and efficiency.

Locate and contact your hard-to-find debtors

On average, 35% of delinquent debtors move annually and 50% need to be skip traced. Locating and contacting them before other collectors improves your probability of quick recovery. LexisNexis Revenue Recovery Solution provides recent comprehensive and complete information on people, businesses and assets, including cell phone numbers and unpublished phone numbers.
