

lexis.com® collection of Elsevier full-text journals expands to 550 ...

200 new publications are now available.

Now 550 publications online!

Now you have even more sources to check for scientific fact-finding research with 200 additional Elsevier publications easily accessible without ever leaving LexisNexis® research screens.

The additional 200 publications covered here offer the same ease of use:

Embedded graphics of thumbnail diagrams, schematics, charts and illustrations within articles can be printed/downloaded with the documents using your regular LexisNexis printing functions, or open the graphics and print/download through local PC functions.

An active PDF document link in each retrieved document lets you gain access to the PDF version of this document so you can print/download it via PC functions.

Flexible navigation and searching so you can select group sources and practice-area groupings for the publications, use specific document segments for precision and find the most current journal articles with LexisNexis SmartIndexing Technology™.

As you look through the list, the letters in parentheses next to each publication title indicate the practice-area group(s) to which each publication is connected. **The 20+ different practice-area groups are:**

- (IP) — Also available in *Elsevier Engineering, Chemistry & Life Sciences Full-Text Journals* (ELSCJL;ELSIP)
- (HM) — Also available in *Elsevier Health Sciences & Medical Full-Text Journals* (ELSCJL;ELSH&M)
- (ABF) — Also available in *Elsevier Accounting, Business & Financial Full-Text Journals* (ELSCJL;ELSABF)
- (AGB) — Also available in *Elsevier Agricultural and Biological Sciences Full-Text Journals* (ELSCJL;ELSAGB)
- (ARH) — Also available in *Elsevier Arts and Humanities Full-Text Journals* (ELSCJL;EL SARH)
- (BGM) — Also available in *Elsevier Biochemistry, Genetics and Molecular Biology Full-Text Journals* (ELSCJL;ELSBGM)
- (CEG) — Also available in *Elsevier Chemical Engineering Full-Text Journals* (ELSCJL;ELSCEG)
- (CHM) — Also available in *Elsevier Chemistry Full-Text Journals* (ELSCJL;ELSCHM)
- (CPS) — Also available in *Elsevier Computer Science Full-Text Journals* (ELSCJL;ELSCPS)
- (EPS) — Also available in *Elsevier Earth and Planetary Sciences Full-Text Journals* (ELSCJL;ELSEPS)
- (ENR) — Also available in *Elsevier Energy Full-Text Journals* (ELSCJL;ELSENR)
- (ENG) — Also available in *Elsevier Engineering Full-Text Journals* (ELSCJL;ELSENG)
- (ENV) — Also available in *Elsevier Environmental Science Full-Text Journals* (ELSCJL;ELSENV)
- (IMB) — Also available in *Elsevier Immunology and Microbiology Full-Text Journals* (ELSCJL;ELSIMB)
- (MAT) — Also available in *Elsevier Materials Science Full-Text Journals* (ELSCJL;ELSMAT)
- (MTH) — Also available in *Elsevier Mathematics Full-Text Journals* (ELSCJL;ELSMTH)
- (MED) — Also available in *Elsevier Medicine and Dentistry Full-Text Journals* (ELSCJL;ELSMED)
- (NEU) — Also available in *Elsevier Neuroscience Full-Text Journals* (ELSCJL;ELSNEU)
- (PTP) — Also available in *Elsevier Pharmacology, Toxicology and Pharmaceutical Science Full-Text Journals* (ELSCJL;ELSPTP)
- (PHA) — Also available in *Elsevier Physics and Astronomy Full-Text Journals* (ELSCJL;ELSPHA)
- (PSY) — Also available in *Elsevier Psychology Full-Text Journals* (ELSCJL;ELSPSY)
- (SOS) — Also available in *Elsevier Social Science Full-Text Journals* (ELSCJL;ELSSOS)
- (VSV) — Also available in *Elsevier Veterinary Science and Veterinary Medicine Full-Text Journals* (ELSCJL; ELSVSV)

*Access to certain freelance articles and other features within these publications (i.e., photographs, classifieds, etc.) may not be available.

Accident and Emergency Nursing (HM)

SHORT NAME: ELSCJL;EACCEN
FREQUENCY: Quarterly
Accident and Emergency Nursing is a peer-reviewed journal devoted to nurses and other professionals involved in emergency care. It aims to promote excellence through dissemination of high quality research findings, specialist knowledge and discussion of professional issues that reflect the diversity of this field.

Acta Tropica (HM) (VSV)

SHORT NAME: ELSCJL;EACTAT
FREQUENCY: Monthly
Acta Tropica is an international journal that covers biomedical and health sciences with particular emphasis on topics relevant to human and animal health in the tropics and subtropics.

Acute Pain (HM) (PTP)

SHORT NAME: ELSCJL;EACUPN
FREQUENCY: Quarterly
Acute Pain is a peer-reviewed international journal and has a specific emphasis on the clinical presentation and treatment of acute pain, in particular, the practical issues of organization, techniques, safety and efficacy.

Advances in Anesthesia (HM) (PTP)

SHORT NAME: ELSCJL;EADVAN
FREQUENCY: Annually
Each year *Advances in Anesthesia* brings you the best current thinking from the preeminent practitioners in the field. A distinguished editorial board identifies areas of major progress they feel every practitioner should be familiar with.

Advances in Colloid and Interface Science (IP) (CEG) (ENG)

SHORT NAME: ELSCJL;EADCIS
FREQUENCY: Monthly
Any subject within the realm of colloid and surface science will be deemed appropriate for this *Advances* journal. The subject matter should be treated in depth as a review of the current state of the subject area.

Advances in Water Resources

(ENR) (ENV)
SHORT NAME: ELSCJL;EADVWR
FREQUENCY: Monthly
Advances in Water Resources provides a forum for the presentation of fundamental scientific advances in the understanding of water resources systems. The scope of *Advances in Water Resources* includes any combination of theoretical, computational or experimental approaches used to advance fundamental understanding of surface or subsurface water resources systems.

Aggression and Violent Behavior

(HM) (PSY)
SHORT NAME: ELSCJL;EAGGVB
FREQUENCY: Bimonthly
Aggression and Violent Behavior is a multidisciplinary journal that publishes substantive and integrative reviews, as well as summary reports of innovative ongoing clinical research programs on a wide range of topics germane to the field of aggression and violent behavior.

Agricultural and Forest Meteorology

(AGB) (ENV)
SHORT NAME: ELSCJL;EAGRFM
FREQUENCY: Monthly
Agricultural and Forest Meteorology is an international journal for the publication of original articles and reviews on the inter-relationship between meteorology and the fields of plant, animal and soil sciences, ecology and biogeochemistry.

Agricultural Systems (AGB)

SHORT NAME: ELSCJL;EAGRSY
FREQUENCY: Monthly
Agricultural Systems is an international journal that deals with interactions—among the components of agricultural systems, among hierarchical levels of agricultural systems, between agricultural and other land use systems, and between agricultural systems and their natural and social environments. In particular, its aim is to encourage integration of knowledge among those disciplines that underpin agriculture.

Agricultural Water Management

(AGB) (ENV)
SHORT NAME: ELSCJL;EAGRWM
FREQUENCY: Monthly
The journal publishes papers of international significance regarding the science, economics and policy of agricultural water management. The scope includes many topics: farm-level and regional water management, irrigation, drainage and salinity management of cultivated areas, collection and storage of rainfall in relation to soil properties and vegetation; the role of groundwater and surface water in nutrient cycling, etc.

The American Journal of Emergency Medicine (HM)

SHORT NAME: ELSCJL;EAMJEM
FREQUENCY: 7 issues per year
A distinctive blend of practicality and scholarship makes *The American Journal of Emergency Medicine* a key source for information on emergency medical care.

Annals of Epidemiology (HM) (IMB)

SHORT NAME: ELSCJL;EANNPEP
FREQUENCY: Monthly
Annals of Epidemiology is a peer reviewed, international journal devoted to epidemiologic research and methodological development. The journal emphasizes the application of epidemiologic methods to issues that affect the distribution and determinants of human illness in diverse contexts.

Antiviral Research (HM) (IMB)

SHORT NAME: ELSCJL;EANVRS
FREQUENCY: Monthly
Antiviral Research publishes full-length original articles, short definitive papers and review articles (one per issue) pertaining to the effective control of viral infections in animals and man as well as in plants or lower organisms.

Appetite (HM) (PSY)

SHORT NAME: ELSCJL;APPET
FREQUENCY: Bimonthly
Appetite is an international research journal specializing in behavioral nutrition and the cultural, sensory and physiological influences on choices and intakes of foods and drinks. It covers normal and disordered eating and drinking, dietary attitudes and practices and all aspects of the bases of human and animal behavior toward food.

Applied Energy (ENR)

SHORT NAME: ELSCJL;EAPPEG

FREQUENCY: Monthly

Applied Energy provides a forum for information and ideas in the areas of energy conversion, conservation and the optimal management and use of energy and power resources. The breadth of coverage ranges from ambient energy, through combustion and processes of electricity release, to the economic use of power in industry.

Applied Ergonomics (HM) (ENG)

SHORT NAME: ELSCJL;EAPERG

FREQUENCY: Bimonthly

Applied Ergonomics is aimed at ergonomists and all those interested in applying ergonomics/human factors in the design, planning and management of technical and social systems at work or leisure. Readership is truly international with subscribers in over 50 countries.

Applied Geochemistry (CHM) (ENV)

SHORT NAME: ELSCJL;EAPGEO

FREQUENCY: Monthly

Applied Geochemistry is an international journal devoted to publication of original research papers, rapid research communications and selected review papers in geochemistry and cosmochemistry which have some practical application to an aspect of human endeavor.

Applied Radiation and Isotopes

(PHA) (CEG)

SHORT NAME: ELSCJL;EARADI

FREQUENCY: Monthly

Applied Radiation and Isotopes provides a high quality medium for the publication of substantial, original and scientific and technological papers on the development and applications of nuclear, radiation and radionuclide techniques in chemistry, physics, biochemistry, biology, medicine, engineering and in the earth, planetary and environmental sciences.

Applied Soil Ecology (ENV) (AGB)

SHORT NAME: ELSCJL;EAPPSE

FREQUENCY: 9 issues per year

Applied Soil Ecology addresses the role of soil organisms and their interactions in relation to: agricultural productivity, nutrient cycling and other soil processes, the maintenance of soil structure and fertility, the impact of human activities and xenobiotics on soil ecosystems and bio(techno)logical control of soil-inhabiting pests, diseases and weeds.

Aquatic Botany (ENV) (AGB)

SHORT NAME: ELSCJL;EAQBOT

FREQUENCY: 8 issues per year

Aquatic Botany is concerned with fundamental studies on structure, function, dynamics and classification of plant-dominated aquatic communities and ecosystems, as well as molecular, biochemical and physiological aspects of aquatic plants.

Aquatic Toxicology (ABG) (ENV)

SHORT NAME: ELSCJL;EAQUTX

FREQUENCY: 20 issues per year

Aquatic Toxicology publishes original scientific papers dealing with the mechanisms of toxicity in aquatic environments and the understanding of responses to toxic agents at community, species, tissue, cellular and subcellular level, including aspects of uptake, metabolism and excretion of toxicants; understanding effects of toxic substances on aquatic ecosystems; and more.

Archives of Oral Biology (HM) (MED)

SHORT NAME: ELSCJL;EARCOB

FREQUENCY: Monthly

Archives of Oral Biology is an international journal that aims to publish papers of the highest scientific quality in the oral and craniofacial sciences. The journal is particularly interested in research which advances knowledge in the mechanisms of craniofacial development and disease.

Autoimmunity Reviews (IMB) (HM)

SHORT NAME: ELSCJL;EAUTRV

FREQUENCY: 8 issues per year

Autoimmunity Reviews will publish up-to-date, concise, structured reviews on diverse topics in autoimmunity, written by first-class experts in the field. Articles will principally be invited by the editors-in-chief upon the recommendations of the international Editorial Board, and will cover all fields of autoimmunology.

Best Practice and Research Clinical Gastroenterology (HM)

SHORT NAME: ELSCJL;EBPRCG

FREQUENCY: Bimonthly

Best Practice & Research Clinical Gastroenterology will provide a comprehensive review of current clinical practice and thinking within the specialty of gastroenterology. All chapters are commissioned and written by an international team of practicing clinicians with the guest editors for each issue drawn from a pool of renowned experts and opinion leaders.

Best Practice and Research Clinical Obstetrics and Gynaecology (HM)

SHORT NAME: ELSCJL;EBPCOG

FREQUENCY: Bimonthly

Best Practice & Research Clinical Obstetrics and Gynaecology will provide a comprehensive review of current clinical practice and thinking within the specialties of obstetrics and gynaecology.

Best Practice and Research Clinical Rheumatology (HM)

SHORT NAME: ELSCJL;EBPRCR

FREQUENCY: Bimonthly

Best Practice and Research Clinical Rheumatology keeps the clinician or trainee informed of the latest developments and current recommended practice in the rapidly advancing fields of musculoskeletal conditions and science. The series provides a continuous update of current clinical practice. It is a topical serial publication that covers the spectrum of musculoskeletal conditions in a four-year cycle.

Biochemical Engineering Journal

(IP) (BGM) (CEG)

SHORT NAME: ELSCJL; EBIOEJ

FREQUENCY: Monthly

Biochemical Engineering Journal aims to promote progress in the crucial chemical engineering aspects of the development of biological processes associated with everything from raw materials preparation to product recovery, relevant to industries as diverse as medical/healthcare, food and environmental protection.

Biochemical Systematics and Ecology (BGM)

SHORT NAME: ELSCJL;EBSYEC

FREQUENCY: Monthly

Biochemical Systematics and Ecology is devoted to the publication of original papers and reviews in two subject areas: the application of biochemistry to problems relating to systematic biology of organisms (biochemical systematics), and the role of biochemistry in interactions between organisms or between an organism and its environment.

Biological Control (AGB) (ENV)

SHORT NAME: ELSCJL;EBIOCT

FREQUENCY: Monthly

Biological Control encompasses biological control of viral, microbial, nematode, insect, mite, weed and vertebrate pests in agriculture, aquatic, forest, natural resources, stored product and urban environments. Biological control of arthropod pests of human and domestic animals is included.

Biological Psychology (AGB) (PSY)

SHORT NAME: ELSCJL;EBIPSY

FREQUENCY: 9 issues per year

Biological Psychology publishes original scientific papers on the biological aspects of psychological states and processes. Biological aspects include electrophysiology and biochemical assessments during psychological experiments as well as biologically induced changes in psychological function.

Biophysical Chemistry (BGM) (CHM)

SHORT NAME: ELSCJL;EBIOCH

FREQUENCY: Biweekly

Biophysical Chemistry publishes original research and authoritative reviews at the interface of physics, chemistry and biology. The journal focuses on experimental and theoretical topics relevant to the understanding of biological macromolecules and biological systems in terms of the principles and methods of physics and chemistry.

Biotechnology Advances

(IP) (AGB) (BGM)

SHORT NAME: ELSCJL;EBIOAD

FREQUENCY: Bimonthly

Biotechnology Advances is devoted to all areas of biotechnology including relevant aspects of its disciplinary underpinnings in biology, chemistry and engineering.

Cancer Genetics and Cytogenetics (IP)

SHORT NAME: ELSCJL;ECGCYT

FREQUENCY: 16 times per year

Cancer Genetics and Cytogenetics offers in-depth coverage of the cellular and molecular aspects of cancer research. This highly acclaimed journal features original articles focusing on the latest knowledge and advances in the area of cytogenetics and cancer genetics.

CATENA (ENV)

SHORT NAME: ELSCJL;ECATEN

FREQUENCY: Monthly

CATENA publishes papers describing original field and laboratory investigations and reviews on geocology and landscape evolution with emphasis on interdisciplinary aspects of soil science, hydrology and geomorphology.

Cell Biology International (BGM)

SHORT NAME: ELSCJL;ECELBI

FREQUENCY: Monthly

Cell Biology International is the official publication of the International Federation for Cell Biology. Each month, the journal publishes easy-to-assimilate, up-to-the-minute reports of experimental findings by researchers using a wide range of the latest techniques.

Cell Calcium (BGM) (CHM)

SHORT NAME: ELSCJL;ECELLC

FREQUENCY: Monthly

Cell Calcium covers all fields of calcium metabolism and signaling in living systems, publishing works from all branches of life science and medicine. This includes all aspects of calcium in biological systems from inorganic chemistry to physiology, molecular biology and pathology.

Cellular Immunology (HM) (IMB)

SHORT NAME: ELSCJL;ECELIM

FREQUENCY: Monthly

Cellular Immunology publishes original investigations concerned with the immunological activities of cells in

experimental or clinical situations. The scope of the journal encompasses the broad area of in vitro and in vivo studies of cellular immune responses.

Cement and Concrete Composites

(CHM) (MAT)

SHORT NAME: ELSCJL;ECEMCC

FREQUENCY: 10 times per year

This journal is designed to reflect current developments and advances being made in the general field of cement-concrete composites technology and in the production, use and performance of cement-based construction materials in general. The word cement is interpreted here in a wide sense to include not only Portland cement but also other matrices such as composite cements, resins, polymers and sulphur.

Chemical Engineering and Processing

(IP)

SHORT NAME: ELSCJL;ECHMEP

FREQUENCY: Monthly

Chemical Engineering and Processing is a journal intended for practicing engineers in industry and academia. The aim of the published articles is to demonstrate how novel discoveries, developments and theories may be used for improved analysis and design of chemical engineering equipment and processes.

Chemico-Biological Interactions

(IMB) (HM)

SHORT NAME: ELSCJL;ECHBOI

FREQUENCY: 18 times per year

Chemico-Biological Interactions publishes research reports and review articles that examine the molecular, cellular and/or biochemical basis of toxicologically relevant outcomes. Special emphasis is placed on mechanisms associated with interactions between chemicals and biological systems.

Children and Youth Services Review

(SOS)

SHORT NAME: ELSCJL;ECHYSR

FREQUENCY: Monthly

Children and Youth Services Review is an interdisciplinary forum for critical scholarship regarding service programs for children and youth.

Clinics in Dermatology (IP)

SHORT NAME: ELSCJL;ECLDER

FREQUENCY: Bimonthly

Clinics in Dermatology brings you the most practical and comprehensive information on the treatment and care of skin disorders. Each issue features a guest editor and is devoted to a single timely topic relating to clinical dermatology.

Comparative Biochemistry and Physiology Part A: Molecular & Integrative Physiology (BGM)

SHORT NAME: ELSCJL;ECBPMP

FREQUENCY: Monthly

Part A: Molecular & Integrative Physiology of Comparative Biochemistry and Physiology deals with molecular, cellular, integrative and ecological physiology. Topics include bioenergetics, circulation, development, excretion, ion regulation, endocrinology, neurobiology, nutrition, respiration and thermal biology.

Comparative Biochemistry and Physiology Part B: Biochemistry & Molecular Biology (BGM)

SHORT NAME: ELSCJL;ECBPPB

FREQUENCY: Monthly

Part B: Biochemistry and Molecular Biology of Comparative Biochemistry and Physiology covers biochemical and molecular biology aspects of metabolism, enzymology, regulation, nutrition, signal transduction, promoters, gene structure and regulation, metabolite and cell constituents, macromolecular structures, adaptational mechanisms and evolutionary principles.

Computational Materials Science

(MAT) (CHM) (ENG)

SHORT NAME: ELSCJL;ECOMTS

FREQUENCY: Monthly

Computational Materials Science aims to enhance the communication between experimental materials research and computational work on both existing and new, advanced materials and their applications. It publishes articles of interest to physicists, chemists and materials researchers and engineers and to other scientists involved with materials phenomena and computational modeling.

Computational Statistics & Data Analysis (MTH)

SHORT NAME: ELSCJL;ECMSDA

FREQUENCY: Monthly

Computational Statistics & Data Analysis (CSDA), the official journal of the International Association of Statistical Computing (IASC), is an international journal dedicated to the dissemination of methodological research and applications in the areas of computational statistics and data analysis.

Computer Aided Design (CPS) (ENG)

SHORT NAME: ELSCJL;ECMPAD

FREQUENCY: Monthly

Computer-Aided Design is an established international journal that provides engineers, designers and computer scientists in academia and industry with key papers on research and developments in the application of computers to the design process.

Computers & Education (CPS)

SHORT NAME: ELSCJL;ECOMED

FREQUENCY: 8 issues per year

The journal is an established technically based, interdisciplinary forum for communication in the use of all forms of computing in this socially and technologically significant area of application and will continue to publish definitive contributions to serve as a reference standard against which the current state-of-the-art can be assessed.

Computers & Geosciences (CPS) (EPS)

SHORT NAME: ELSCJL;ECOMGO

FREQUENCY: 10 issues per year

Computers & Geosciences brings to its readers research on novel computer methods in the geosciences, such as spatial analysis, geomathematics, modeling, simulation, statistical and artificial intelligence methods, e-geoscience, geoinformatics, geomatics, geocomputation, image analysis, remote sensing and geographical information science.

Computers & Industrial Engineering

(CPS) (ENG)

SHORT NAME: ELSCJL;ECMPIE

FREQUENCY: 8 issues per year

The journal aims at an audience of researchers, educators and practitioners of industrial engineering and associated fields. It publishes original contributions to the development of new computerized methodologies for

solving industrial engineering problems, and applications of these methodologies to problems of interest to the broad industrial engineering and associated communities.

Computers in Human Behavior

(PSY) (CPS)

SHORT NAME: ELSCJL;ECMPHB

FREQUENCY: Bimonthly

Computers in Human Behavior is a scholarly journal dedicated to examining the use of computers from a psychological perspective. Original theoretical works, research reports, literature reviews, software reviews, book reviews and announcements are published. The journal addresses both the use of computers in psychology, psychiatry and related disciplines as well as the psychological impact of computer use on individuals, groups and society. The journal addresses human interactions with computers, not computers per se.

Contraception (HM) (BGM) (PTP)

SHORT NAME: ELSCJL;ECONTR

FREQUENCY: Monthly

The purpose of *Contraception* is to provide a medium for the rapid communication of advances and new knowledge in all areas of contraception. Manuscripts are received from researchers and clinicians in the following areas of research: chemistry, biochemistry, physiology, endocrinology, biology, the medical sciences and demography.

Construction and Building Materials

(MAT)

SHORT NAME: ELSCJL;ECONBM

FREQUENCY: Monthly

Construction and Building Materials provides an international forum for the dissemination of research and development in the field of construction and building materials and their application in new works and repair practice.

Continental Shelf Research (ENV) (EPS)

SHORT NAME: ELSCJL;ECONSR

FREQUENCY: 20 issues per year

Continental Shelf Research publishes articles dealing with the physical oceanography, sedimentology, geology, chemistry, biology and ecology of the shallow marine environment, from coastal and estuarine water out to the shelf break.

Control Engineering Practice

(ENG) (ABF)

SHORT NAME: ELSCJL;ECENGP

FREQUENCY: Monthly

Control Engineering Practice strives to meet the needs of industrial practitioners and industrially related academics and researchers. It publishes papers which illustrate the direct application of control theory and its supporting tools in all possible areas of automation.

Crop Protection

(AGB)

SHORT NAME: ELSCJL;ECROPP

FREQUENCY: Monthly

Crop Protection emphasizes the practical aspects of control in the field, and includes work which may lead in the near future to more effective control. The journal does not duplicate the many existing excellent biological science journals, which deal mainly with the more fundamental aspects of plant pathology, applied zoology and weed science.

Cytokine

(BGM) (IMB)

SHORT NAME: ELSCJL;ECYTOK

FREQUENCY: Monthly

Devoted exclusively to the study of the molecular biology, biochemistry, immunology, diagnostic and clinical applications of all known interleukins, hematopoietic factors, growth factors, cytotoxins, interferons, and new cytokines, *Cytokine* provides comprehensive coverage of cytokines and their receptors.

Cytokine & Growth Factor Reviews

(IMB) (BGM) (HM)

SHORT NAME: ELSCJL;ECYGFR

FREQUENCY: Bimonthly

Cytokine & Growth Factor Reviews publishes thought-provoking articles (critical reviews, state-of-the-art reviews, letters to the editor, meeting reviews) devoted to important advances in the rapidly changing fields of growth factor and cytokine research. Major emphasis is placed on the multidisciplinary significance of cytokines and growth factors.

Decision Support Systems

(ABF) (CPS)

SHORT NAME: ELSCJL;EDECSS

FREQUENCY: 8 issues per year

Decision Support Systems welcomes contributions on the concepts and operational basis for DSSs, techniques for implementing and evaluating DSSs, DSS experiences and related studies. The

common thread of articles published in the journal will be their relevance to theoretical, technical DSS issues.

Deep Sea Research Part I: Oceanographic Research Papers

(AGB) (ENV)

SHORT NAME: ELSCJL;EDSORP

FREQUENCY: Monthly

Deep Sea Research Part I:

Oceanographic Research Papers is devoted to the publication of the results of original scientific research, including theoretical work of evident oceanographic applicability; and the solution of instrumental or methodological problems with evidence of successful use.

Deep Sea Research Part II: Topical Studies in Oceanography

(ENV) (AGB)

SHORT NAME: ELSCJL;EDSPTS

FREQUENCY: Biweekly

Deep Sea Research Part II: Topical

Studies in Oceanography publishes topical issues from many international and interdisciplinary projects which are undertaken in oceanography. Besides these special issues from projects, the journal publishes collections of papers presented at conferences.

Diagnostic Microbiology and Infectious Disease

(HM) (IMB) (PTP)

SHORT NAME: ELSCJL;EDGMID

FREQUENCY: Monthly

Diagnostic Microbiology and Infectious Disease keeps you informed of the latest developments in clinical microbiology and the diagnosis and treatment of infectious diseases. Packed with rigorously peer-reviewed articles and studies in bacteriology, immunology, immunoserology, infectious diseases, mycology, parasitology and virology, the journal examines new procedures, unusual cases, controversial issues and important new literature.

Discrete Mathematics

(MTH)

SHORT NAME: ELSCJL;EDMATH

FREQUENCY: Biweekly

The aim of *Discrete Mathematics* is to bring together research papers in different parts of discrete mathematics. The journal presents papers in combinatorial mathematics and related areas.

Dyes and Pigments

(CHM)

SHORT NAME: ELSCJL;EDYPIG

FREQUENCY: Monthly

Dyes and Pigments covers the scientific and technical aspects of the chemistry and physics of dyes, pigments and their intermediates. Emphasis is placed on the properties of the coloring matters themselves rather than on their applications or the system in which they may be applied.

Early Human Development

(HM)

SHORT NAME: ELSCJL;EARHUD

FREQUENCY: Monthly

Established as an authoritative, highly cited voice on early human development, *Early Human Development* provides a unique opportunity for researchers and clinicians to bridge the communication gap between disciplines. Creating a forum for the productive exchange of ideas concerning early human growth and development, the journal publishes original research and clinical papers.

Earth Science Reviews

(EPS)

SHORT NAME: ELSCJL;EARSER

FREQUENCY: Biweekly

Earth Science Reviews publishes review papers of all aspects of Earth Sciences or treatises on an expanding Earth Sciences subject.

Ecological Engineering

(ENG) (ENV)

SHORT NAME: ELSCJL;ECOENG

FREQUENCY: Monthly

The journal is meant for ecologists who, because of their research interests or occupation, are involved in designing, monitoring or constructing ecosystems. It is meant to serve as a bridge between ecologists and engineers, as ecotechnology is not wholly defined by either field.

Ecotoxicology and Environmental Safety

(ENV)

SHORT NAME: ELSCJL;EEOES

FREQUENCY: 9 issues per year

Ecotoxicology and Environmental Safety is focused on the integrated mechanistic research on short- and long-term pathways and interactions of substances and chemical mixtures in the environmental compartments, on bioavailability, circulation and assimilation in the target organisms, their biological response and damage mechanisms as well as on a further fate in the food chain, including humans.

Electrochemistry Communications (CHM) (ENR)

SHORT NAME: ELSCJL;EECHCM
FREQUENCY: Monthly
Electrochemistry Communications is a letters journal providing fast dissemination of short communications covering the whole field of electrochemistry.

Energy and Buildings (ENR) (ENV)

SHORT NAME: ELSCJL;EENGBD
FREQUENCY: Monthly
Energy and Buildings is an international journal publishing articles with explicit links to energy use in buildings. The aim is to present new research results, and new proven practice aimed at reducing energy needs of a building and improving indoor environment quality.

Engineering Fracture Mechanics (ENG) (ENG)

SHORT NAME: ELSCJL;EEFRMC
FREQUENCY: 18 issues per year
Engineering Fracture Mechanics is a journal designed to be of broad interest and use to both researchers and practitioners of fracture mechanics in academic, industrial and government organizations.

Engineering Geology (ENG) (EPS)

SHORT NAME: ELSCJL;EENGGO
FREQUENCY: Biweekly
The journal is an international medium for the publication of original studies, case histories and comprehensive reviews in the field of engineering geology. Included are all geological studies that can be relevant to engineering, environmental concerns and safety.

Environmental Modelling and Software (ENV) (CPS)

SHORT NAME: ELSCJL;EENVMS
FREQUENCY: Monthly
Environmental Modelling and Software publishes contributions in the form of research articles, reviews, short communications as well as software and data news, on recent advances in environmental modelling and/or software.

Environmental Research (HM) (ENV)

SHORT NAME: ELSCJL;EENVRS
FREQUENCY: 9 issues per year
Environmental Research publishes original reports describing studies of the toxic effects of environmental agents on

humans and animals. The principal aims of the journal are to define the etiology of environmentally induced illness and to increase understanding of the mechanisms by which environmental agents cause disease.

Epilepsy & Behavior (HM) (NEU)

SHORT NAME: ELSCJL;EEPBEH
FREQUENCY: 8 issues per year
Epilepsy & Behavior is uniquely devoted to the rapid dissemination of the most current information available on the behavioral aspects of seizures and epilepsy. *Epilepsy & Behavior* presents original peer-reviewed articles based on laboratory and clinical research.

European Economic Review (ABF)

SHORT NAME: ELSCJL;EEUECR
FREQUENCY: 8 issues per year
As a broad-based professional and international journal, this journal welcomes submissions of applied and theoretical research papers in all fields of economics. The aim of *EER* is to contribute to the development of the science of economics and its applications, as well as to improve communication between academic researchers, teachers and policy makers across the European continent and beyond.

European Journal of Surgical Oncology (HM)

SHORT NAME: ELSCJL;EURJSO
FREQUENCY: Monthly
European Journal of Surgical Oncology ("the Journal of Cancer Surgery") is the Official Journal of the European Society of Surgical Oncology and BASO—the Association for Cancer Surgery. The *EJSO* aims to educate and inform about the many subspecialty disciplines of cancer surgery.

European Journal of Vascular and Endovascular Surgery (HM)

SHORT NAME: ELSCJL;EEJVES
FREQUENCY: Monthly
European Journal of Vascular and Endovascular Surgery is aimed primarily at vascular surgeons dealing with patients with arterial, venous and lymphatic diseases. Contributions are included on the diagnosis, investigation and management of these vascular disorders.

European Psychiatry (HM) (PSY)

SHORT NAME: ELSCJL;EERPSY
FREQUENCY: 8 issues per year
European Psychiatry presents the results of original research relative to those domains which are presently of interest to psychiatry: psychopathology, nosography, chemotherapy, psychotherapy, clinical methodology, biological disorders and mental pathology, psychophysiology and neuropsychology as well as animal behavior.

Expert Systems with Applications (ABF)

SHORT NAME: ELSCJL;EEXPSA
FREQUENCY: 8 issues per year
This a refereed international journal whose focus is on exchanging information relating to expert and intelligent systems applied in industry, government and universities worldwide. The thrust of the journal is to publish papers dealing with the design, development, testing, implementation and/or management of expert and intelligent systems and also to provide practical guidelines in the development and management of these systems.

Field Crops Research (AGB)

SHORT NAME: ELSCJL;EFCRPR
FREQUENCY: 15 issues per year
Field Crops Research is an international research journal containing relevant scientific and technological papers on crops and cropping systems. The subjects covered include crop ecology, agronomy, physiology, breeding, productivity, product quality and protection. Studies on soil fertility, soil and water management, and farming systems in relation to crops and cropping systems are also included.

Fish & Shellfish Immunology (AGB) (IMB)

SHORT NAME: ELSCJL;EFSIMM
FREQUENCY: Monthly
Fish & Shellfish Immunology presents studies on the basic mechanisms of both the specific and non-specific defense systems, the cells, tissues and humoral factors involved, their dependence on environmental and intrinsic factors, response to pathogens, response to vaccination and applied studies on the development of specific vaccines for use in the aquaculture industry.

Fisheries Research (AGB)

SHORT NAME: ELSCJL;EFISHR

FREQUENCY: 18 issues per year

This journal provides an international forum for the publication of papers in the areas of fisheries science, fishing technology, fisheries management and relevant socio-economics. The scope covers fisheries in salt, brackish and freshwater systems, and all aspects of associated ecology, environment and pollution issues, and economics.

Fitoterapia (CHM) (HM) (PTP)

SHORT NAME: ELSCJL;EFITOT

FREQUENCY: 8 issues per year

Fitoterapia is an international journal publishing original research in chemistry, pharmacology and use of medicinal plants and their derivatives.

Food Hydrocolloids (CHM) (BGM)

SHORT NAME: ELSCJL;EFDHYD

FREQUENCY: 8 issues per year

Food Hydrocolloids publishes original research in basic and applied aspects of the properties, functionality and use of macromolecules in food systems. Hydrocolloids in this context include polysaccharides, modified polysaccharides and proteins acting alone, or in mixture with other food components, as thickening agents, gelling agents or surface-active agents.

Food Microbiology (BGM) (ADB)

SHORT NAME: ELSCJL;EFODMB

FREQUENCY: 8 issues per year

Food Microbiology publishes original research articles, short communications, review papers, letters, news items and book reviews dealing with all aspects of the microbiology of foods.

Food Quality and Preference

SHORT NAME: ELSCJL;EFQPRF

FREQUENCY: 8 issues per year

Food Quality and Preference publishes original research, critical reviews, topical and practical features and comment. In addition, the journal publishes special invited issues on important timely topics and on the proceedings of relevant conferences on sensory and consumer science, and sensometrics.

Fuel Processing Technology (CEG) (ENR)

SHORT NAME: ELSCJL;EFUPRT

FREQUENCY: Monthly

Fuel Processing Technology deals with the scientific and technological aspects of processing fuels to other fuels, chemicals and by-products. Processing is considered in the sense of chemical conversions such as hydrogenation, gasification, pyrolysis and upgrading as well as physical processing by beneficiation, cleaning and removal of inorganic matter as well as sizing, crushing or screening.

Gene Expression Patterns (BGM)

SHORT NAME: ELSCJL;EGEXPT

FREQUENCY: 8 issues per year

Gene Expression Patterns is a section of the journal *Mechanisms of Development*. It is devoted to the rapid publication of high-quality "cloning and expression" papers, papers reporting patterns of expression of interesting or important genes during development, or the results of molecular or gene expression screens analyzing interesting developmental events or stages.

General and Comparative

Endocrinology (HM) (BGM)

SHORT NAME: ELSCJL;EGCEND

FREQUENCY: 15 issues per year

General and Comparative Endocrinology publishes articles concerned with the many complexities of vertebrate and invertebrate endocrine systems at the sub-molecular, molecular, cellular and organismal levels of analysis.

Health Policy (HM)

SHORT NAME: ELSCJL;EHEAPO

FREQUENCY: 15 issues per year

Health Policy is intended to be a vehicle for the exploration and discussion of health policy issues and is aimed in particular at enhancing communication between health policy researchers, legislators, decision makers, and professionals concerned with developing, implementing and analyzing health policy.

Hearing Research (HM)

SHORT NAME: ELSCJL;EHEARR

FREQUENCY: Biweekly

The aim of the journal is to provide a forum for papers concerned with basic auditory mechanisms. Emphasis is on experimental studies, but theoretical papers will also be considered. Papers submitted should deal with auditory

neurophysiology, ultrastructure, psychoacoustics and behavioral studies of hearing in animals, and models of auditory functions.

Human Pathology (HM)

SHORT NAME: ELSCJL;EHUMPA

FREQUENCY: Monthly

Well illustrated, with exceptional reproductions of photomicrographs and microscopic anatomy, this critical and authoritative journal offers great diversity of coverage in each issue. Regular features include original contributions, current topics and progress in anatomic pathology, case studies, book reviews and notices.

Icarus (PHA)

SHORT NAME: ELSCJL;EICARU

FREQUENCY: Monthly

Icarus is devoted to the publication of original contributions in the field of planetary science. The journal reports the results of new research observational, experimental, theoretical concerning the astronomy, geology, meteorology, physics, chemistry, biology and other scientific aspects of solar or extrasolar systems.

Inorganic Chemistry Communications

(CHM)

SHORT NAME: ELSCJL;EINOCC

FREQUENCY: Monthly

Inorganic Chemistry Communications is an international journal dedicated to the rapid publication of short communications in the major areas of inorganic, organometallic and supramolecular chemistry. Topics include synthetic and reaction chemistry, kinetics and mechanisms of reactions, bioinorganic chemistry, photochemistry and the use of metal and organometallic compounds in stoichiometric and catalytic synthesis or organic compounds.

Insect Biochemistry and Molecular Biology (AGB) (BGM)

SHORT NAME: ELSCJL;EIBMBI

FREQUENCY: Monthly

This international journal publishes original contributions and mini-reviews in the fields of insect biochemistry and insect molecular biology. Main interest areas are neurochemistry, hormone and

pheromone biochemistry, enzymes and metabolism, hormone action and gene regulation, gene characterization and structure, pharmacology, immunology and cell and tissue culture.

Intermetallics (CHM) (MAT)

SHORT NAME: ELSCJL;EINTER

FREQUENCY: Monthly

Intermetallics is concerned with all aspects of ordered chemical compounds between two or more metals and notably with their applications.

International Journal of Fatigue

(ENG) (MAT)

SHORT NAME: ELSCJL;EINJFT

FREQUENCY: Monthly

International Journal of Fatigue is dedicated entirely to the full range of science and technology associated with fatigue. The scope of the *Journal* includes the study, analysis and modeling of fatigue and fatigue-related processes from the atomic level to global engineering behavior, in all classes of materials and material systems.

International Journal of Heat and Fluid Flow (ENG) (ENV)

SHORT NAME: ELSCJL;EIJHFF

FREQUENCY: Bimonthly

International Journal of Heat and Fluid Flow publishes high-quality original contributions on experimental, computational and physical aspects of convective heat transfer and fluid dynamics relevant to engineering or the environment, including multiphase flows.

International Journal of Impact Engineering (ENG)

SHORT NAME: ELSCJL;EINJIE

FREQUENCY: Monthly

International Journal of Impact Engineering exists for the publication of original research work concerned with the response of structures and bodies to dynamic loads arising from exposure to blast, collision or other impact events.

International Journal of Industrial Ergonomics (ABF)

SHORT NAME: ELSCJL;EIJIER

FREQUENCY: Monthly

The *Journal* publishes original contributions that add to our understanding of the role of humans in today's systems and the interactions

thereof with various system components. The *Journal* typically covers the following areas: industrial and occupational ergonomics, design of systems, tools and equipment, human performance measurement and modeling, human productivity, humans in technologically complex systems and safety.

International Journal of Mass Spectrometry (CHM) (ENG)

SHORT NAME: ELSCJL;EINJMS

SHORT NAME: ELSCJL;EINJMS

The *Journal* invites papers in all fundamental aspects of mass spectrometry and ion processes, including instrumental developments and applications in biology, chemistry, geology and physics.

International Journal of Mechanical Sciences (ENG)

SHORT NAME: ELSCJL;EIJMCS

FREQUENCY: Monthly

International Journal of Mechanical Sciences is an international forum for the publication and dissemination of original work which contributes to the understanding of the main disciplines underpinning the mechanical and civil engineering sciences.

International Journal of Multiphase Flow (ENG)

SHORT NAME: ELSCJL;EINJMF

FREQUENCY: Monthly

International Journal of Multiphase Flow publishes theoretical and experimental investigations of multiphase flow that are of relevance and permanent interest.

International Journal of Pediatric Otorhinolaryngology

SHORT NAME: ELSCJL;EIJPDO

FREQUENCY: Monthly

The purpose of *International Journal of Pediatric Otorhinolaryngology* is to concentrate and disseminate information concerning prevention, cure and care of otorhinolaryngological disorders in infants and children due to developmental, degenerative, infectious, neoplastic, traumatic, social, psychiatric and economic causes.

International Journal of Plasticity (CHM) (MAT)

SHORT NAME: ELSCJL;EINTJP

FREQUENCY: Monthly

The purpose of the *Journal* is to report original research on all aspects of plastic deformation, damage and fracture behavior of isotropic as well as anisotropic solids, including the thermodynamics of plasticity and fracture, continuum theory and macroscopic as well as microscopic phenomena.

International Journal of Psychophysiology (HM) (PSY)

SHORT NAME: ELSCJL;EIJPSY

FREQUENCY: Monthly

International Journal of Psychophysiology is the official journal of the International Organization of Psychophysiology, and provides a respected forum for the publication of high-quality original contributions on all aspects of psychophysiology. The *Journal* is interdisciplinary and aims to integrate the neurosciences and behavioral sciences.

International Journal of Rock Mechanics and Mining Sciences (EPS)

SHORT NAME: ELSCJL;EJRMMS

FREQUENCY: 8 issues per year

This journal is concerned with original research, new developments, site measurements and case studies in rock mechanics and rock engineering. It provides an international forum for the publication of high quality papers on the subject of rock mechanics and the application of rock mechanics principles and techniques to mining and civil engineering projects built on or in rock masses.

Journal of Aerosol Science (CHM)

SHORT NAME: ELSCJL;EJAERS

FREQUENCY: Monthly

Journal of Aerosol Science is a long-established international publication which sets out to encourage and foster all aspects of basic and applied aerosol research by publishing high-quality scientific papers in that very multidisciplinary field.

Journal of Anxiety Disorders (HM) (PSY)
SHORT NAME: ELSCJL;EJANDS
FREQUENCY: 8 issues per year
Journal of Anxiety Disorders is an interdisciplinary journal that publishes research papers dealing with all aspects of anxiety disorders for all age groups (child, adolescent, adult and geriatric). Areas of focus include: traditional, behavioral, cognitive and biological assessment; diagnosis and classification; psychosocial and psychopharmacological treatment; genetics; epidemiology; and prevention.

Journal of Archaeological Science (SOS)
SHORT NAME: ELSCJL;EJNLAS
FREQUENCY: Monthly
Journal of Archaeological Science is aimed at archaeologists and scientists with particular interests in advances in the application of scientific techniques and methodologies to all areas of archaeology.

Journal of Arid Environments (ENV)
SHORT NAME: ELSCJL;EJNLAE
FREQUENCY: Monthly
Journal of Arid Environments is an international journal publishing original scientific and technical research articles on physical, biological and anthropological aspects of arid, semi-arid and desert environments.

The Journal of Arthroplasty (HM)
SHORT NAME: ELSCJL;EJNART
FREQUENCY: 8 issues per year
The Journal of Arthroplasty brings together the clinical and scientific foundations for joint replacement. This peer-reviewed journal publishes original research and manuscripts of the highest quality from all areas relating to joint replacement or the treatment of its complications, including those dealing with clinical series and experience, prosthetic design, biomechanics, biomaterials, metallurgy, biologic response to arthroplasty materials in vivo and in vitro.

Journal of Cleaner Production (ENV)
SHORT NAME: ELSCJL;EJNCPR
FREQUENCY: 18 issues per year
Journal of Cleaner Production serves as an interdisciplinary, international forum for the exchange of information and research results on the technologies,

concepts and policies designed to help ensure progress towards sustainable societies. It aims to encourage industrial innovation, new and improved products and the implementation of new, cleaner processes, products and services. It is also designed to stimulate the development and implementation of prevention-oriented governmental policies and education programs.

Journal of Computational and Applied Mathematics (MTH)
SHORT NAME: ELSCJL;EJNCAM
FREQUENCY: Biweekly
Journal of Computational and Applied Mathematics publishes original papers of high scientific value in all areas of computational and applied mathematics. The main interest of the Journal is in papers that describe and analyze new computational techniques for solving scientific or engineering problems.

Journal of Contaminant Hydrology (ENV)
SHORT NAME: ELSCJL;EJCHYD
FREQUENCY: 32 issues per year
Journal of Contaminant Hydrology is an international journal publishing scientific articles pertaining to the contamination of groundwater. Emphasis is placed on investigations of the physical, chemical and biological processes influencing the behavior of organic and inorganic contaminants in both the unsaturated (vadose) and saturated zones.

Journal of Dentistry (MED)
SHORT NAME: ELSCJL;EJDENT
FREQUENCY: Monthly
Journal of Dentistry appeals to a substantial international readership seeking to keep up-to-date with research and developments in the field of dental science, with an emphasis on new knowledge and innovations pertinent to the contemporary practice of clinical dentistry.

Journal of Development Economics (ABF)
SHORT NAME: ELSCJL;EJDVEC
FREQUENCY: Bimonthly
Journal of Development Economics publishes papers relating to all aspects of economic development—from immediate policy concerns to structural problems of underdevelopment.

Journal of Economic Behavior & Organization (ABF)
SHORT NAME: ELSCJL;EJNEBO
FREQUENCY: 16 issues per year
Journal of Economic Behavior and Organization is devoted to theoretical and empirical research concerning economic decision, organization and behavior and to economic change in all its aspects.

Journal of Economic Dynamics and Control (ABF)
SHORT NAME: ELSCJL;EJECDC
FREQUENCY: Monthly
The *Journal* provides an outlet for publication of research concerning all theoretical and empirical aspects of economic dynamics and control as well as the development and use of computational methods in economics and finance.

Journal of Emergency Medicine (IP)
SHORT NAME: ELSCJL;EJNEMM
FREQUENCY: 8 issues per year
Journal of Emergency Medicine is an international, peer-reviewed publication featuring original contributions of interest to both the academic and practicing emergency physician. It offers research papers and clinical studies as well as articles focusing on the training of emergency physicians and on the practice of emergency medicine.

Journal of Experimental Child Psychology (HM) (PSY)
SHORT NAME: ELSCJL;EJECPS
FREQUENCY: Monthly
Journal of Experimental Child Psychology is a leading source of empirical research on all aspects of children's development from infancy through adolescence, including cognitive, social and physical development.

Journal of Experimental Social Psychology (PSY) (SOS) (HM)

SHORT NAME: ELSCJL;EJNESP
FREQUENCY: Bimonthly

Journal of Experimental Social Psychology publishes original research and theory on human social behavior and related phenomena. The *Journal* emphasizes empirical, conceptually based research that advances an understanding of important social psychological processes.

Journal of Food Composition and Analysis (AGB)

SHORT NAME: ELSCJL;EJNFCA
FREQUENCY: 8 issues per year

This journal is devoted to all scientific aspects of the composition of human foods, and emphasizes new methods of analysis; data on composition of foods; studies on the production, compilation and dissemination of food composition data; studies on the statistics and distribution of such data and data systems; and studies related to data use, including nutritional epidemiology, clinical research, agro-biodiversity, food security and food trade.

Journal of Fluorine Chemistry

(HM) (BGM)

SHORT NAME: ELSCJL;EJNFCH
FREQUENCY: Monthly

Journal of Fluorine Chemistry contains original papers and short communications describing both pure and applied research on the chemistry and applications of fluorine, and of compounds where fluorine exercises significant effects. The *Journal of Fluorine Chemistry* covers inorganic, organic, organometallic and physical chemistry.

Journal of Health Economics (ABF) (HM)

SHORT NAME: ELSCJL;EJNHEC
FREQUENCY: Bimonthly

This journal seeks articles related to the economics of health and medical care. Its scope includes the following topics: production of health and health services; demand and utilization of health services; financing of health services; measurement of health; behavioral models of demanders, suppliers and other healthcare agencies; manpower planning and forecasting; the prevention of sickness; etc.

Journal of Human Evolution

(AGB) (SOS)

SHORT NAME: ELSCJL;EJNHEV
FREQUENCY: Monthly

Journal of Human Evolution concentrates on publishing the highest quality papers covering all aspects of human evolution. The central focus is aimed jointly at palaeoanthropological work, covering human and primate fossils, and at comparative studies of living species, including both morphological and molecular evidence.

Journal of Insect Physiology (AGB)

SHORT NAME: ELSCJL;EJNLIP
FREQUENCY: Monthly

All aspects of insect physiology are published in this journal which will also accept papers on the physiology of other arthropods.

Journal of International Economics

(ABF)

SHORT NAME: ELSCJL;EJIECO
FREQUENCY: Bimonthly

Journal of International Economics is intended to serve as the primary outlet for theoretical and empirical research in all areas of international economics. These include, but are not limited to the following: trade patterns, commercial policy; international institutions; exchange rates; open economy macroeconomics; international finance; and international factor mobility.

Journal of Luminescence (ENG)

SHORT NAME: ELSCJL;EJNLUM
FREQUENCY: Monthly

Journal of Luminescence provides a means of communication between scientists in different disciplines who share a common interest in the electronic excited state of molecular, ionic and covalent systems, whether crystalline, amorphous or liquid.

Journal of the Mechanics and Physics of Solids (ENG) (PHA) (MTH)

SHORT NAME: ELSCJL;EJNMPS
FREQUENCY: Monthly

Emphasis is placed on the development of fundamental concepts of mechanics and novel applications of these concepts based on theoretical, experimental or computational approaches, drawing upon the various branches of engineering science and the allied areas within applied mathematics, materials science, structural engineering, applied physics and geophysics.

Journal of Memory and Language

(HM) (NEU)

SHORT NAME: ELSCJL;EJMEML
FREQUENCY: 8 issues per year

Articles in the *Journal of Memory and Language* contribute to the formulation of scientific issues and theories in the areas of memory, language comprehension and production, and cognitive processes.

Journal of Monetary Economics (ABF)

SHORT NAME: ELSCJL;EJMECO
FREQUENCY: 8 issues per year

The role of various institutional arrangements, the consequences of specific changes in banking structure and the welfare aspects of structural policies have attracted an increasing interest in the profession. There has also been a growing attention to the operation of credit markets and to various aspects in the behavior of rates of return on assets.

The Journal of Nutritional Biochemistry

(BGM) (CHM) (PTP)

SHORT NAME: ELSCJL;EJNNBO
FREQUENCY: Monthly

Devoted to advancements in nutritional sciences, *The Journal of Nutritional Biochemistry* presents experimental nutrition research as it relates to: biochemistry, neurochemistry, molecular biology, toxicology, physiology and pharmacology.

Journal of Operations Management

(ABF)

SHORT NAME: ELSCJL;EJOMGT
FREQUENCY: Bimonthly

The mission of the *Journal of Operations Management* is to publish original, high-quality research papers in the field of operations management.

Journal of Physics and Chemistry of Solids (CHM) (MAT) (PHA)

SHORT NAME: ELSCJL;EJP&CS
FREQUENCY: Frequency

Journal of Physics and Chemistry of Solids is a well-established international medium for publication of research in condensed matter and materials science. Emphasis is placed on experimental and theoretical work which contributes to a basic understanding of and new insight into the properties and behavior of condensed matter.

Journal of Psychiatric Research

(HM) (PSY)

SHORT NAME: ELSCJL;EJPSYR

FREQUENCY: 14 issues per year

Journal of Psychiatric Research

is dedicated to innovative and timely studies of four important areas of research: (1) clinical studies of all disciplines relating to psychiatric illness, as well as normal human behavior; (2) basic studies pertaining to psychiatry in such fields as neuropsychopharmacology, neuroendocrinology, electrophysiology, genetics, etc.; (3) the growing application of clinical laboratory techniques in psychiatry; and (4) advances in basic and clinical research methodology.

Journal of Public Economics (ABF) (SOS)

SHORT NAME: ELSCJL;EJPECO

FREQUENCY: Monthly

The aim of the *Journal of Public Economics* is to encourage original scientific contributions on the problems of public economics, with particular emphasis on the application of modern economic theory and methods of quantitative analysis.

Journal of Statistical Planning and Inference (MTH)

SHORT NAME: ELSCJL;EJNSPI

FREQUENCY: Monthly

This is a broad-based journal covering all branches of statistics, with special encouragement to workers in the field of statistical planning and related combinatorial mathematics and probability theory.

Journal of Structural Biology

(AGB) (BGM)

SHORT NAME: ELSCJL;EJNLSB

FREQUENCY: Monthly

The Journal of Structural Biology publishes papers dealing with the structural analysis of living material at every level of organization by all methods that lead to an understanding of biological function in terms of molecular and supermolecular structure.

Journal of Structural Geology (EPS)

SHORT NAME: ELSCJL;EJNLSG

FREQUENCY: Monthly

The Journal of Structural Geology

publishes on the structural geology of the Earth and other planets and moons, including related contributions in rheology, geophysics, geochemistry, geodynamics and tectonics.

Journal of Substance Abuse Treatment

(HM) (PSY)

SHORT NAME: ELSCJL;EJNSAT

FREQUENCY: 8 issues per year

Journal of Substance Abuse Treatment

(*JSAT*) features original reviews, training and educational articles, special commentary and especially research articles that are meaningful to the treatment of alcohol, heroin, marijuana and other drugs of dependence. *JSAT* is directed toward treatment practitioners from all disciplines (medicine, nursing, social work, psychology and counseling) in both private and public sectors.

The Journal of Supercritical Fluids

(CEG) (ENG)

SHORT NAME: ELSCJL;EJNLSF

FREQUENCY: Monthly

The Journal of Supercritical Fluids is an international journal devoted to the fundamental and applied aspects of supercritical fluids and processes. Its coverage is multidisciplinary and includes both basic and applied topics.

Journal of Vocational Behavior

(ABF) (SOS)

SHORT NAME: ELSCJL;EJNLVB

FREQUENCY: Bimonthly

Journal of Vocational Behavior publishes empirical and theoretical articles that expand knowledge of vocational behavior and career development. Research presented in the *Journal* encompasses the general categories of career choice, implementation and vocational adjustment and adaptation.

Journal of Volcanology and Geothermal Research (EPS)

SHORT NAME: ELSCJL;EJNVGR

FREQUENCY: 40 issues per year

An international research journal with focus on volcanic and geothermal processes and their impact on the environment and society.

Journal of Wind Engineering and Industrial Aerodynamics (ENR) (ENG)

SHORT NAME: ELSCJL;EJWEIA

FREQUENCY: Monthly

The objective of the *Journal* is to provide a means for the publication and interchange of information, on an international basis, on all those aspects of wind engineering that are included in the activities of the International Association for Wind Engineering.

Lithos (EPS)

SHORT NAME: ELSCJL;ELITHO

FREQUENCY: Biweekly

Lithos is an international English-language journal publishing high-quality, original research papers on mineralogy, petrology and geochemistry, emphasizing the application of mineralogy and geochemistry to petrogenetic problems.

Magnetic Resonance Imaging (HM)

SHORT NAME: ELSCJL;EMAGRI

FREQUENCY: 10 issues per year

This is the first international multidisciplinary journal encompassing physical, life and clinical science investigations as they relate to the development and use of magnetic resonance imaging.

Management Accounting Research

(ABF)

SHORT NAME: ELSCJL;EMGTAR

FREQUENCY: Quarterly

Management Accounting Research aims to serve as a vehicle for publishing original research in the field of management accounting. Its contributions include case studies, field work, and other empirical research, analytical modeling, scholarly papers, distinguished review articles, comments and notes.

Manual Therapy (HM)

SHORT NAME: ELSCJL;EMANTH

FREQUENCY: Bimonthly

Manual Therapy is a peer-reviewed journal catering for the diverse needs of the various professions engaged in all aspects of manual therapy.

Marine Chemistry (CHM)

SHORT NAME: ELSCJL;EMARCM
FREQUENCY: 20 issues per year
Marine Chemistry is an international medium for the publication of original studies and occasional reviews in the field of chemistry in the marine environment, with emphasis on the dynamic approach.

Marine Environmental Research (ENV)

SHORT NAME: ELSCJL;EMARER
FREQUENCY: 10 issues per year
Marine Environmental Research publishes original research papers on chemical, physical and biological interactions in the oceans and coastal waters. The journal serves as a forum for new information on biology, chemistry and toxicology and syntheses that advance understanding of marine environmental processes.

Materials & Design (ENG) (MAT)

SHORT NAME: ELSCJL;EMATDS
FREQUENCY: 10 issues per year
Materials & Design, as its title implies, publishes papers, articles and reports which describe the properties of a material which influence or control any practical design. All types of materials are covered as well as all scales of application from micromachinery to large structural components.

Materials Today (MAT)

SHORT NAME: ELSCJL;EMATTD
FREQUENCY: Monthly
Materials Today is the international magazine for all researchers with an interest in materials science and technology. Through its unique mixture of peer-reviewed articles, the latest research news, and information on key developments, *Materials Today* provides comprehensive coverage of this exciting and dynamic field.

Microelectronics and Reliability

SHORT NAME: ELSCJL;EMICRL
FREQUENCY: Monthly
Microelectronics Reliability is dedicated to disseminating the latest research results and related information on the reliability of microelectronic devices, circuits and systems. The coverage of the journal includes the following topics: physics and analysis; evaluation and prediction; modeling and simulation; methodologies and assurance.

Minerals Engineering (EPS) (ENG)

SHORT NAME: ELSCJL;EMINEG
FREQUENCY: 15 issues per year
The purpose of the journal is to provide for the rapid publication of topical papers featuring the latest developments in the allied fields of mineral processing and extractive metallurgy.

Molecular Genetics and Metabolism

(HM) (BGM) (IMB)
SHORT NAME: ELSCJL;EMOLGM
FREQUENCY: Monthly
Molecular Genetics and Metabolism is a contribution to the understanding of the metabolic basis of disease. The journal publishes articles describing investigations that use the tools of biochemistry and molecular biology for studies of normal and diseased states.

Neurochemistry International

(NEU) (PSY) (CHM) (HM)
SHORT NAME: ELSCJL;ENEUCH
FREQUENCY: 16 issues per year
Neurochemistry International is devoted to the rapid publication of outstanding original articles and timely reviews in neurochemistry.

Neurocomputing (CPS) (NEU)

SHORT NAME: ELSCJL;ENUCMP
FREQUENCY: 18 issues per year
Neurocomputing publishes articles describing recent fundamental contributions in the field of neurocomputing. Neurocomputing theory, practice and applications are the essential topics being covered.

Neuroscience Research (HM) (NEU)

SHORT NAME: ELSCJL;ENEURS
FREQUENCY: Monthly
Neuroscience Research is an international journal for high quality articles in all branches of neuroscience, from the molecular to the behavioral levels.

Nuclear Engineering and Design (ENR)

SHORT NAME: ELSCJL;ENUCED
FREQUENCY: Monthly
Nuclear Engineering and Design covers the wide range of disciplines involved in the engineering, design, safety and construction of nuclear fission reactors. The editors welcome papers both on applied and innovative aspects and developments in nuclear science and technology.

Nuclear Physics B (ENR) (PHA)

SHORT NAME: ELSCJL;ENUCPB
FREQUENCY: Weekly
Nuclear Physics B focuses on the domain of high energy physics and quantum field theory, and includes three main sections, i.e. particle physics (including particle physics; cosmology, astrophysics and gravitation; the physics of hadrons; computer simulations in physics; methods in theoretical physics), field theory and statistical systems; and physical mathematics.

Oral Oncology (HM) (MED)

SHORT NAME: ELSCJL;EORALC
FREQUENCY: Monthly
Oral Oncology is an international interdisciplinary journal which publishes high quality original research, clinical trials and review articles and all other scientific articles relating to the etiopathogenesis, epidemiology, prevention, clinical features, diagnosis, treatment and management of patients with neoplasms in the head and neck, and orofacial disease in patients with malignant disease.

Organic Geochemistry

(CHM) (EPS) (ENR)
SHORT NAME: ELSCJL;EORGGO
FREQUENCY: Monthly
Organic Geochemistry serves as the only dedicated medium for the publication of peer-reviewed research on all phases of geochemistry in which organic compounds play a major role.

Organizational Behavior and Human Decision Processes (SBF) (PSY)

SHORT NAME: ELSCJL;EOBHDP
FREQUENCY: Bimonthly
Organizational Behavior and Human Decision Processes publishes fundamental research in organizational behavior, organizational psychology, and human cognition, judgment and decision-making.

Pattern Recognition Letters (CPS) (MTH)

SHORT NAME: ELSCJL;EPRECL
FREQUENCY: 16 issues per year
Pattern Recognition Letters aims at rapid publication of concise articles of a broad interest in pattern recognition. Subject areas include all the current fields of interest represented by the Technical Committees of the International Association of Pattern Recognition, and other developing themes involving learning and recognition.

Pediatric Neurology (HM) (NEU)
SHORT NAME: ELSCJL;EPEDNU
FREQUENCY: Monthly
Pediatric Neurology features up-to-the-minute publication of the latest advances in the diagnosis, management and treatment of pediatric neurological disorders.

Pharmacological Research (PTP) (BGM)
SHORT NAME: ELSCJL;EPHRES
FREQUENCY: Monthly
Pharmacological Research provides a rapid information exchange medium for specialists whose research techniques differ and whose fields of study vary widely within the discipline of pharmacology. The journal publishes papers on basic and applied pharmacological research in both animals and man, and aims at rapid publication of all accepted papers.

Physics Reports (PHA)
SHORT NAME: ELSCJL;EPHYRP
FREQUENCY: 90 issues per year
Physics Reports keeps the active physicist up-to-date on developments in a wide range of topics by publishing timely reviews which are more extensive than just literature surveys but normally less than a full monograph. Each report deals with one specific subject.

Plant Physiology and Biochemistry (AGB) (BGM)
SHORT NAME: ELSCJL;EPPBIO
FREQUENCY: Monthly
Plant Physiology and Biochemistry embraces physiology, biochemistry, molecular biology, biophysics, structure and genetics at different levels, from the molecular to the whole plant and environment.

Polymer Testing (CEG) (MAT)
SHORT NAME: ELSCJL;EPOLYT
FREQUENCY: 8 issues per year
Polymer Testing provides a forum for developments in the testing of polymers and polymeric products and is hence of interest to those concerned with testing rubbers and plastics in research, in production and in connection with the specification and purchase of products.

Progress in Organic Coatings (MAT) (CHM)
SHORT NAME: ELSCJL;EPROOC
FREQUENCY: Summary
The aims of this international journal are to analyze and publicize the progress and current state of knowledge in the field of organic coatings and related materials.

Progress in Polymer Science (CHM)
SHORT NAME: ELSCJL;EPPSCI
FREQUENCY: Monthly
Progress in Polymer Science publishes state-of-the-art overview articles by internationally recognized authorities in polymer science and engineering, two fast-growing disciplines.

Prostaglandins Leukotrienes and Essential Fatty Acids (HM) (BGM)
SHORT NAME: ELSCJL;EPLEFA
FREQUENCY: Monthly
The role of lipids, including essential fatty acids and their prostaglandin, leukotriene and other derivatives, is now evident in almost all areas of biomedical science. *Prostaglandins Leukotrienes and Essential Fatty Acids* aims to cover all aspects of the roles of lipids in cellular, organ and whole organism function, and places a particular emphasis on human studies.

Radiation Physics and Chemistry (CHM) (PHA)
SHORT NAME: ELSCJL;ERADPC
FREQUENCY: Monthly
Radiation Physics and Chemistry is a multidisciplinary journal that provides a medium for publication of substantial and original papers, reviews and technical notes which focus on research and developments in radiation physics, radiation chemistry and radiation processing.

Regulatory Peptides (HM) (BGM) (PTP)
SHORT NAME: ELSCJL;ESREGP
FREQUENCY: 21 issues per year
Regulatory Peptides provides a medium for the rapid publication of interdisciplinary studies on the physiology and pathology of peptides of the gut, endocrine and nervous systems which regulate cell or tissue function.

Reliability Engineering & System Safety (ENG)
SHORT NAME: ELSCJL;EREGSS
FREQUENCY: Monthly
Reliability Engineering & System Safety is an international journal devoted to the development and application of methods for the enhancement of the safety and reliability of complex technological systems, like nuclear power plants, chemical plants, hazardous waste facilities, space systems, offshore and maritime systems, transportation systems, constructed infrastructure and manufacturing plants.

Research in Microbiology (MB) (BGM)
SHORT NAME: ELSCJL;ERMICR
FREQUENCY: 10 issues per year
Research in Microbiology has been a leading resource source of up-to-date information in the field of microbiology for more than a century. It publishes papers based on original research in fundamental and applied biology of bacteria, archaea and lower eukaryotes. It covers all aspects of the microbial taxonomy, phylogeny, ecology, physiology and metabolism, molecular genetics and genomics, as well as the interactions between microbes and interactions of microbes with their environment.

Resources, Conservation and Recycling (ENV)
SHORT NAME: ELSCJL;ERESCR
FREQUENCY: Monthly
The journal emphasizes the transformation processes involved in a transition toward more sustainable production and consumption systems.

Respiratory Medicine (HM)
SHORT NAME: ELSCJL;EREMED
FREQUENCY: Monthly
Respiratory Medicine is an internationally-renowned journal devoted to the rapid publication of clinically relevant respiratory medicine research. Topics include adult and pediatric medicine, epidemiology, immunology and cell biology, physiology, occupational disorders and the role of allergens and pollutants.

Sedimentary Geology (EPS)

SHORT NAME: ELSCJL;ESEDGO

FREQUENCY: 40 issues per year

In scope, the journal encompasses all aspects of research into sediments and sedimentary rocks, and at all spatial and temporal scales. It thus aims to provide a forum for the publication of high-quality research papers across the entire subject.

Seminars in Cancer Biology

(HM) (BGM)

SHORT NAME: ELSCJL;ESCANB

FREQUENCY: Bimonthly

Seminars in Cancer Biology is a review journal dedicated to keeping scientists informed of developments in the field of molecular oncology on a topic by topic basis. Each issue is thematic in approach, devoted to an important topic of interest to cancer biologists.

Seminars in Immunology (HM) (IMB)

SHORT NAME: ELSCJL;ESEIMM

FREQUENCY: Bimonthly

Seminars in Immunology is a review journal dedicated to keeping scientists informed of developments in the field of immunology on a topic by topic basis. Each issue is thematic in approach, devoted to an important topic of interest to immunologists.

Separation and Purification Technology

(CHM) (ENV)

SHORT NAME: ELSCJL;ESEPTT

FREQUENCY: 18 issues per year

Separation and Purification Technology is an international journal providing a comprehensive coverage of all aspects of separation and purification of homogeneous gaseous and liquid solutions and heterogeneous mixtures, such as emulsions or gas/solid, liquid/solid and solid mixtures.

Soil and Tillage Research (AGB) (ANV)

SHORT NAME: ELSCJL;ESOITR

FREQUENCY: 10 issues per year

This journal is concerned with the changes in the physical, chemical and biological parameters of the soil environment brought about by soil tillage and field traffic, their effects on both below and above ground environmental quality, crop establishment, root development and plant growth, and the interactions between these various effects.

Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy

(BGM) (CHM)

SHORT NAME: ELSCJL;ESAPMB

FREQUENCY: 15 issue per year

The range of spectroscopic techniques covered by the journal includes infrared, visible and ultraviolet, linear and circular dichroism, fluorescence, Raman, microwave; all continuous wave and time-resolved spectroscopies; magnetic resonance spectroscopy, electron spin resonance, magnetic circular dichroism, neutron and light-scattering; and Mossbauer and X-ray absorption

Spectrochimica Acta Part B: Atomic Spectroscopy (CHM) (ENG)

SHORT NAME: ELSCJL;ESAASP

FREQUENCY: Monthly

Spectrochimica Acta Part B: Atomic Spectroscopy is intended for the rapid publication of both original work and reviews in Atomic Emission (AES); Atomic Absorption (AAS) and Atomic Fluorescence (AFS); Mass Spectrometry (MS) for inorganic analysis covering, Spark Source (SS-MS), Inductively Coupled Plasma (ICP-MS), Glow Discharge (GD-MS), and Secondary Ion Mass Spectrometry (SIMS); Laser-induced atomic spectroscopy for inorganic analysis, including non-linear optical laser spectroscopy; X-ray spectrometry and related techniques.

Steroids (HM) (BGM) (PTP)

SHORT NAME: ELSCJL;ESTERO

FREQUENCY: 14 issues per year

Steroids is an international journal devoted to original research on all aspects of steroids. Its focus is on both experimental and theoretical studies in chemistry and physiochemistry, biosynthesis, metabolism, molecular biology, physiology, pharmacology, analytical techniques, comparative endocrinology, clinical research, mode of action and the role of steroids on growth and differentiation.

Surgical Neurology (HM)

SHORT NAME: ELSCJL;ESURNU

FREQUENCY: Monthly

Surgical Neurology covers the latest developments in the field of neurosurgery by providing peer-reviewed articles that discuss advances in clinical practice and neuroscience research of value for the practicing

neurosurgeon and resident. Surgical Neurology provides the only source of open controversy among published neurosurgery journals worldwide.

Survey of Ophthalmology (HM)

SHORT NAME: ELSCJL;ESUOPH

FREQUENCY: Bimonthly

Survey of Ophthalmology is a clinically oriented review journal designed to keep ophthalmologists up-to-date.

Teaching and Teacher Education (SOS)

SHORT NAME: ELSCJL;ETTEDU

FREQUENCY: 8 issues per year

Teaching and Teacher Education aims to enhance theory, research and practice in teaching and teacher education through the publication of papers concerned with the description of teaching, teaching effectiveness, the factors that determine teachers' thought processes and performances and the social policies that affect teachers in all aspects and stages of their careers.

Toxicology in Vitro (BGM) (PTP)

SHORT NAME: ELSCJL;ETOXVT

FREQUENCY: 8 issues per year

Toxicology in Vitro publishes original research papers and reviews on the application and use of in vitro systems for assessing or predicting the toxic effects of chemicals and elucidating their mechanisms of action. These in vitro techniques include utilizing cell or tissue cultures, isolated cells, tissue slices, subcellular fractions, transgenic cell cultures and cells from transgenic organisms, as well as in silico modeling.

TrAC Trends in Analytical Chemistry

(CHM)

SHORT NAME: ELSCJL;ETRACH

FREQUENCY: Monthly

The articles in *TrAC* are concise overviews of new developments in analytical chemistry, and are aimed at helping analytical chemists and other users of analytical techniques explore and orient themselves in fields outside of their particular specialization(s).

Trends in Cardiovascular Medicine

(HM)

SHORT NAME: ELSCJL;ETCMED

FREQUENCY: 8 issues per year

Trends in Cardiovascular Medicine provides state-of-the-art reviews on the application of scientific advances to the development of new prognostic, diagnostic and therapeutic strategies for heart and vascular diseases.

Trends in Food Science & Technology

(BGM)

SHORT NAME: ELSCJL;ETDSTC

FREQUENCY: Monthly

Trends in Food Science & Technology is the only truly international peer-reviewed journal publishing critical reviews and viewpoints of current technology, food science and human nutrition. Its role is to fill the gap between the specialized primary journals and general trade magazines by focusing on the most promising new research developments and their current and potential food industry applications in a readable, scientifically rigorous way.

Tribology International (CEG)

SHORT NAME: ELSCJL;ETRIBI

FREQUENCY: Monthly

Tribology International provides up-to-date information on the science, practice and technology of lubrication, wear prevention and friction control. This multidisciplinary field is approached from a practical standpoint, equipping designers, research and development engineers, mechanical and lubrication engineers, managers and scientists with the information that will enable them to minimize the cost of moving parts.

Ultramicroscopy (ENG)

SHORT NAME: ELSCJL;EULTRA

FREQUENCY: Monthly

Ultramicroscopy was initiated to provide a forum for investigators and to concentrate otherwise widely dispersed knowledge, promoting cross-fertilization. This communication between developer and user covers all aspects—fundamental and technical—pertaining to ultramicroscopic elucidation of structure, ranging from particle optics to radiation interaction.

Vacuum (ENG)

SHORT NAME: ELSCJL;EVACUM

FREQUENCY: Monthly

The international journal *Vacuum* publishes high quality papers on latest advances in the many areas which now require the production and control of a working environment at pressure below one atmosphere.

The Veterinary Journal (VSV)

SHORT NAME: ELSCJL;EVETJN

FREQUENCY: Monthly

This journal publishes worldwide contributions on all aspects of veterinary science and its related subjects. Research areas include infectious diseases, applied biochemistry, parasitology, endocrinology, microbiology, immunology, pathology, pharmacology, physiology, molecular biology, immunogenetics, surgery, ophthalmology, dermatology and oncology.

Waste Management (ENV)

SHORT NAME: ELSCJL;EWASMG

FREQUENCY: Monthly

Waste Management is an international journal devoted to the presentation and discussion of information on the generation, prevention, characterization, monitoring, treatment, handling, reuse and ultimate residual disposition of solid wastes, both in industrialized and in economically developing countries.
