

Mega News Sources Surface Facts About Emerging Issues

You may often depend on early analysis of emerging issues, like the subprime lending crisis or the potential impact of global warming, to be on the cutting edge of client counseling. Up-to-date information allows you to address client questions proactively and guide them through regulatory and litigation challenges.

LexisNexis has created a new focus on emerging issues by pulling together both existing content and working with experienced authors to develop expert analysis on the topics. We deliver timely information on the most complex and perplexing issues that affect your clients.

Emerging Issues content will help you by:

- Providing expert analysis of emerging issues so you can evaluate risk in anticipation of legislation or court decisions.
- Providing analysis of proposed regulations as they relate to on-going business practices.
- Making it easy to stay ahead of impacts of political and economic events as well as those constantly recurring and never solved legal issues with top issue analysis.
- Offering practical insights from experts in the field to help you guide your clients through the maze of potential legislative, regulatory and political implications.

Mega News is a major component of the Emerging Issues sections. These combined news offerings cover targeted topics within a given practice area and provide you with specific facts and issues that can impact your cases, clients and practice. Following is a list of available topics and the source path for finding each topic.
