

Make connections with LexisNexis® SmartLinx™ — One search ... one report ... the facts you need

LexisNexis SmartLinx is the premier public records report product that lets you quickly comb through billions of records in a single search to locate and connect facts. Retrieve names, addresses, phone numbers and other information and connect this data to appropriate people, businesses and locations.

As you view your easy-to-browse SmartLinx™ summary report, you can link right to:

- **The Source Documents**—so you can rely on the information you find.
- **A Four-Color Report Graphic**—with easy-to-browse information icons and easy-to-follow lines that completely represent the complex relationships not readily apparent within the raw report data. One report ... one graphic. View it; reorganize the icons; move from icon to source document.
- **Other SmartLinx Reports**—opening an information portal to even more facts about the properties, people and businesses mentioned in your original SmartLinx report.

SmartLinx is easy and efficient to use:

- Access data quickly with a streamlined platform
- Create reports on the fly to make more accurate connections
- Pinpoint relevant data faster with a tabular format that makes reports easy to read
- Improve the accuracy of your results with powerful feature/functionality

Permissible use selections are integrated into the search form itself, so you don't have to work through multiple screens.

A "sounds like" ability helps you find variations and similar sounding names.

Proximity searching lets you search for items within a radius of an address element (zip code, city/state), allowing you to get results if you only know the general area in which someone lives.

SmartLinx search form—Person Summary Report

The screenshot shows the LexisNexis Total Research System interface. The search form is titled "SmartLinx(TM) - Person Summary Reports". It includes a "Search" tab and a "Guided Search Forms" sub-tab. The form contains the following fields and options:

- Enter Search Terms:** A text input field with a help icon.
- Choose a DPPA Use:** A dropdown menu with a help icon.
- Choose a GLBA Use:** A dropdown menu with a help icon.
- Last Name:** A text input field with a checked checkbox for "Use similar sounding terms for Last Name".
- First Name:** A text input field.
- Middle Name:** A text input field.
- Street Address:** A text input field.
- City:** A text input field.
- State:** A dropdown menu set to "All States".
- Zip Code:** A text input field.
- Search Radius:** A dropdown menu set to "30 Miles".
- Telephone:** A text input field with examples: "(e.g., 456-7890 or (123) 456-7890)".
- SSN:** A text input field with examples: "(e.g., 123-45-6789 or 123456789)".
- Birth Date:** Three input fields for month, day, and year, with a "mm dd yyyy" label.
- Buttons:** "Search" and "Undo" buttons.

Use of this product is governed by applicable law, including the Drivers' Privacy Protection Act and related state laws (DPPA) and the Gramm-Leach-Bliley Act (GLBA), and your user agreement with LexisNexis. The data regulated by the DPPA and the GLBA may be used only for that use. If you do not have a permissible use selected, the data will not be used.

One search ... one report ... the facts you need

Easy-to-use report format

When you request a report, SmartLinx creates a cite list that gives you enough information to quickly identify items of interest.

- Displays in an easy-to-read column format.
- Multiple entries for the same individual are automatically combined in a single entry.
- Cite list provides “flags” to identify people who are deceased, living in a mental institution, using a post office box, using a Social Security number that was issued before the individual’s birth date and other indicators of potential fraud.
- Generate a report on an address, phone number, or Social Security number right from the cite list.

Key:
 High risk indicator. These flags may prompt you to investigate further
 Moderate risk indicator. These flags may prompt you to investigate further
 The most recent telephone listing as reported by the EDA source

The full report on an individual continues the easy-to-read column format of the cite display.

Links are provided to the original source documents from which the data was drawn allowing you to validate the original source.

The report includes “As of” dates to help you identify when a person lived at a particular address and then prioritize results and determine which addresses to pursue for further investigation.

Try LexisNexis SmartLinx for yourself. You’ll be impressed by the scope of the data, the ease-of-use and the powerful way that it makes connections between facts. The depth and breadth of its sources, plus the powerful functionality of LexisNexis SmartLinx, make it the premier public records report product.
