

## At A Glance

Created by experienced Matthew Bender® editors, the *lexis.com*® Medical Information Page provides a customized, practice-oriented approach to medical research.

The Practice Area Pages provide an intuitive, easy-to-use entry point to *lexis.com* designed specially for area of law practitioners. You'll find all the resources you use most often, in one location, with search forms that let you quickly and easily retrieve cases, statutes, regulations, and other relevant documents.

The Medical Information Page gives you quick access to medical journals, jury verdicts, information on expert witnesses, current news, descriptions of specific medical conditions written specially for lawyers, and much more.

Search in medical journals and treatises or find jury verdicts and medical news

Review Attorney's Textbook of Medicine for information on specific types of medical conditions

Find expert witnesses

Today's research history

The screenshot shows the Lexis.com Medical Information Page interface. At the top, there is a navigation bar with links for Home, Research System, My Products, LEXIS-NEXIS by Credit Card, Daily Opinion Service, Practice Pages, Bookstore, Career Center, CLE, and Products & Services. The main content area is titled "Medical Information" and includes a "Main" section with "Search" and "Injuries & Disorders" sub-sections. The "Search" section lists "Journals / RXMEGA", "Treatises / Guides", "Jury Verdicts", and "News". The "Injuries & Disorders" section lists various medical conditions such as "Head and Brain / Psychiatric Disorders", "Face", "Neck / Back", "Shoulder & Arm", "Chest", "Abdomen", "Reproductive Systems", "Hip & Leg", "Infectious Diseases", "Toxicology", "Musculoskeletal Disorders", "Skin", "Systemic Diseases and Blood Disorders", and "Injury Index". Below this, there are sections for "Finding Experts" (with a "Shepard's®" link) and "Today's Research History". A "Feedback" and "Page Help" section is at the bottom. On the right side, there is a "Welcome" message, a "Current Awareness" section featuring a "Lancet" clipping service, and a "Search By Source" section listing "Attorneys' Textbook for Medicine", "Proving Medical Diagnosis and Prognosis", "Attorneys' Dictionary of Medicine", "Diagnostic Procedures", "Courtroom Toxicology", "RXMEGA", "MEDLINE", and "EMBASE". Below that is a "Search By Injuries & Disorders" section listing "Head and Brain", "Psychiatric Disorders", "Face", "Neck", "Back", "Shoulder & Arm", "Chest", "Abdomen", "Reproductive Systems", "Hip & Leg", "Infectious Diseases", "Toxicology", "Musculoskeletal Disorders", "Skin", and "Systemic Diseases and Blood Disorders". A copyright notice at the bottom right states "Copyright © 2001 LEXIS-NEXIS, a division of Reed Elsevier Inc. All rights reserved. Your use of this service is governed by Terms & Conditions. Please review them."

# Medical Information

Use quick search forms to search the full text of medical journals, or search abstracts of articles from thousands of journals in the Medline® and Embase databases. To access the journals, click *Journals/RXMEGA*.

To find an expert witness and/or collect information on an expert witness, click *Finding Experts* on the left side of the Medical Information Page.

**Search Journals / RXMEGA**

**Option 1: Search RXMEGA**

To find articles by an author  
Enter Name (e.g. Doe)

To find terms in the text  
Enter Terms (e.g. sensory integration)

NOTE: Using the author's full first name will preclude retrieving any Medline or Embase abstracts.

To find a particular date or range  
Enter Date (e.g. aft 1999)

To find an article by title  
Enter title (e.g. clinical results)

**Option 2: Medline**

To find articles by an author  
Enter Name (e.g. Doe)

To find terms in the abstract  
Enter Terms (e.g. sensory integration)

NOTE: Use initials for the author's first name and middle names. Using the full first name will preclude retrieving any abstracts.

To find a particular date or range  
Enter Date (e.g. aft 1999)

To find an article by title  
Enter title (e.g. clinical results)

**Option 3: Embase**

To find articles by an author  
Enter Name (e.g. Doe)

To find terms in the abstract  
Enter Terms (e.g. sensory integration)

NOTE: Use initials for the author's first name and middle names. Using the full first name will preclude retrieving any abstracts.

To find a particular date or range  
Enter Date (e.g. aft 1999)

To find an article by title  
Enter title (e.g. clinical results)

**Option 4: Search Journal by Source**

- Last Two Years
- Beyond Two Years
- All Journals
- The Lancet
- Trauma

Callouts on the left side of the screenshot:  
- Search combined medical and health journals (points to Option 1)  
- Search abstracts in Medline® database (points to Option 2)  
- Search abstracts in Embase database (points to Option 3)  
- Search medical journals by specific source (points to Option 4)

**Finding Experts**
