# PREFACE

---

Things move fast in criminal procedure. Many new cases have come down since last year. This Supplement is meant to bring you the most important and most interesting of these.

While it is natural for law students to suspect that each of their professors enjoy loading them up with more and more work from that professor's special interest, that is not my intent. I tried to limit the book to a manageable length, and I hope that your professor will be selective in making assignments from this Supplement. You should read every U.S. Supreme Court case in this Supplement (there aren't very many), because they indicate the direction the law is taking. But you need not read every lower court case. I included them because I found them irresistible — they are fascinating, sometimes important, and usually well-written. But even if your professor is sympathetic and does not assign them, you might find them nice bedtime reading. Crime stories are fun. Enjoy!
