New York Civil Practice: CPLR (Weinstein, Korn & Miller), 2nd Edition

Jack B. Weinstein, Harold L. Korn, Arthur R. Miller, original authors;
David L. Ferstendig, General Editor

Recognized by the courts and the market as the authority on New York civil practice for more than 40 years, *Weinstein, Korn & Miller* has made the analysis of eminent experts easily accessible and relevant. It is organized by statute and it also includes the *Timetable for New York Civil Practice* (updated by David L. Ferstendig). This classic CPLR treatise has been modernized and enhanced for easier use:

- Expert authors' commentary provides unique insight into the development of case and statutory law
- Organization emphasizes the most current legal developments and deemphasizes old law
- Procedural Context paragraphs describe each CPLR section's interrelationship with other statutes and the New York court rules, cross-refer to related CPLR sections, and explain significant recent amendments
- A Reference Appendix in each chapter highlights related materials, including New York court rules, law review articles, references to key forms in *Bender's Forms for the Civil Practice: CPLR* and citations to federal practice counterparts
- Introduction chapter provides an overview of coverage and suggestions on how to use *New York Civil Practice: CPLR (Weinstein, Korn, & Miller)* in print and online

LexisNexis® Practice Guide: New York e-Discovery and Evidence

Kyle C. Bisceglie

This guide takes the body of law emerging under case law, the provisions of CPLR Article 31 and the Federal Rules of Civil Procedure, and translates them into concise, practical guidance by looking at e-discovery and electronically stored information (ESI) through the eyes of New York attorneys. It focuses on the New York law and the law applied by federal courts in New York that impact the discovery and use of ESI as evidence. Comprehensive in scope, it:

- Describes the creation, storage and production of ESI
- Explores how to identify and manage the volume of ESI that may be relevant to a particular lawsuit
- Suggests how to deal with the dynamic information stored in metadata
- Discusses the need to avoid spoliation and retrieve, restore or translate the material before it is produced
- Examines issues regarding relevance and privilege
- Evaluates the unique obligation of the parties to “meet and confer” on the plan for discovery of ESI, especially with respect to ethical considerations, litigation strategy and managing the cost of producing ESI
- Explains how to use ESI at trial
