

LexisNexis® Law School Publications Available for Winter/Spring 2013

The way we teach, learn and research is transforming. Professors, students and legal professionals globally are adopting new technologies to teach and learn the law, stay current, and work efficiently. LexisNexis Law School Publications are transforming too.

In time for fall 2012 classes, we added the eBook medium to our collection of course books and study aids so that you can prepare for class anywhere, anytime. Electronic books offer the structure of a print book with the re-flowable content and functionality of an e-reader, plus the ability to tap on citations, statutes and cases that link to Lexis Advance™. Students can purchase and immediately download electronic books for law school from the LexisNexis® Store or various eBook distributors and bookstores.

Now, students have two ways to save when they purchase LexisNexis books. In addition to the heavily discounted loose-leaf versions of our books (at 40 percent off the price of the hardbound book), we now also provide a growing number of publications in eBook format priced as much as 35 percent off the price of the hardbound book.

LexisNexis is proud to be a provider of high-quality educational content in print, eBook, and discounted loose-leaf versions.

Coursebook Series Titles:

Constitutional Law Modular Series

The *Constitutional Law Modular Series* is intentionally designed to break the mold of the traditional casebook. Course materials consist of one or more separate volumes selected from among a larger and growing set of volumes. Each of those volumes is relatively short, so that the professor may “mix and match” a suitable number of volumes for a course of varying length and focus. Each volume is designed to serve an instructional purpose rather than as a treatise. Each of the volumes in the Series is published in soft cover. The associated DVD-ROM included with each volume contains full, searchable text of several of the most important resources for interpreting the Constitution, lowering the wall between doctrinal courses and research courses. Cases and materials that shed additional light on matter in the casebook are also included. The titles in this Series include:

- ❑ Introduction to Interpretive Methods and Introduction to the Federal Judicial Power, Volume 1 (2008) (eB) (Pub. No. 3261)
Thomas H. Odom
- ❑ Introduction to the Federal Executive Power & Separation of Powers Issues, Volume 2 (2008) (eB) (Pub. No. 3262)
