Choose from digital textbooks that can be read on a device of choice or print media in bound or loose-leaf formats.

New in 2014! Evidence Challenge ... An interactive, Web-based problem and role-based exam tool. The category "Evidence" contains a complete listing of all titles that are part of the Evidence Challenge. These eBooks include dynamic links to an innovative platform simulating a courtroom experience.

The law-professor version of the LexisNexis® Digital Library continues to be updated as new content and new editions become available in eBook format.

Most LexisNexis® titles are published in a number of formats, including eBook and loose-leaf, in addition to their casebound or softbound format. Many also offer supplemental teaching materials. Look for titles noted with a TM (teaching materials) designation. Look for author videos highlighting salient features of the book. These are noted with a AV (author video) designation.

Coursebook Series Titles

Constitutional Law Modular Series

The *Constitutional Law Modular Series* is intentionally designed to break the mold of the traditional casebook. Course materials consist of one or more separate volumes selected from among a larger and growing set of volumes.

Each of those volumes is relatively short, so that the professor may “mix and match” a suitable number of volumes for a course of varying length and focus. Each volume is designed to serve an instructional purpose rather than as a treatise. Each of the volumes in the *Series* is published in soft cover. The associated DVD-ROM included with each volume contains full, searchable text of several of the most important resources for interpreting the Constitution, lowering the wall between doctrinal courses and research courses. Cases and materials that shed additional light on matter in the casebook are also included. The titles in this *Series* include:

Introduction to Interpretive Methods and Introduction to the Federal Judicial Power, Volume 1 (2008)

(Pub. #03261) Thomas H. Odom

Introduction to the Federal Executive Power & Separation of Powers Issues, Volume 2 (2008)

(Pub. #03262) Thomas H. Odom

(Pub. #03263) Thomas H. Odom

Foundations of Law Series

The *Foundations of Law Series* offers a collection of comprehensive readings that provide an interdisciplinary perspective on a substantive legal field. Edited by scholars who have made important contributions, the readings are designed to provide an accessible introduction to the leading scholarship in a field. Accompanying notes and questions permit students to engage fully in the literature on their own, as well as to aid their understanding of material covered in classes. LexisNexis® Graduate Tax Series

The *Graduate Tax Series* books emphasize complex, practice-oriented problems in order to help students develop the skills of recognizing issues and analyzing provisions of the Internal Revenue Code and regulations that they will encounter in practice on a daily basis. Course materials, including the problems, are designed to encourage students to learn the law by carefully studying the applicable sections of the Code and regulations. Excerpts from cases, administrative pronouncements, and secondary sources are limited to those appropriate to learning how to understand and apply the Code, the regulations, and non-statutory doctrines such as business purpose and step transaction.
