2. Law School Book Information Central

Welcome to LexisNexis® Law School Book Information Central
Connecting Law School professionals with class preparation information!

The purpose of this site is to provide centralized, up-to-date information about LexisNexis® law school print and eBooks (casebooks, textbooks, skills-based books, study aids and supplements). Follow the tabs below for helpful links to tools and information:
Dear Professor:

As technology and the learning experience evolve, LexisNexis is proud to provide transformative, high-quality educational content in a print or digital format that suits your teaching style and accommodates a mobile environment for your students. Choose from digital textbooks that can be read on a device of choice or print media in bound or loose-leaf formats.

New in 2014! Evidence Challenge ... An interactive, Web-based problem and role-based exam tool. The category “Evidence” contains a complete listing of all titles that are part of the Evidence Challenge. These eBooks include dynamic links to an innovative platform simulating a courtroom experience.

The law-professor version of the LexisNexis® Digital Library continues to be updated as new content and new editions become available in eBook format.

Most LexisNexis® titles are published in a number of formats, including eBook and loose-leaf, in addition to their casebound or softbound format. Many also offer supplemental teaching materials. Look for titles noted with a TM (teaching materials) designation. Look for author videos highlighting salient features of the book. These are noted with a AV (author video) designation.

This catalog highlights New Titles Coming Soon, as well as identifiers for new editions pending release. In addition:

- The Skills & Values Series titles to help you integrate experiential learning materials into your courses
- The Study Aid Series titles (Guide To, Questions & Answers and Understanding) for you to recommend to your students for additional class and exam preparation
- The Graduate Tax Series titles for advanced and LLM tax courses
- The Foundations of Law Series titles
- The Constitutional Law Modular Series titles
- Titles available for course adoption from NITA® and AHLA®

**Coursebook Series Titles**

**Constitutional Law Modular Series**

The Constitutional Law Modular Series is intentionally designed to break the mold of the traditional casebook. Course materials consist of one or more separate volumes selected from among a larger and growing set of volumes. Each of those volumes is relatively short, so that the professor may “mix and match” a suitable number of volumes for a course of varying length and focus. Each volume is designed to serve an instructional purpose rather than as a treatise. Each of the volumes in the Series is published in soft cover. The associated DVD-ROM included with each volume contains full, searchable text of several of the most important resources for interpreting the Constitution, lowering the wall between doctrinal courses and research courses. Cases and materials that shed additional light on matter in the casebook are also included. The titles in this Series include:

- The Fourteenth Amendment, Volume 5 (2013) (Pub. #03265, AV) Lee J. Strang

**Foundations of Law Series**

The Foundations of Law Series offers a collection of comprehensive readings that provide an interdisciplinary perspective on a substantive legal field. Edited by scholars who have made important contributions, the readings are designed to provide an accessible introduction to the leading scholarship in a field. Accompanying notes and questions permit students to engage fully in the literature on their own, as well as to aid their understanding of material covered in classes. The list of available titles includes:

- Foundations of Bankruptcy Law (Pub. #03343) Barry Adler Anticipated November 2014
LexisNexis® Graduate Tax Series

The Graduate Tax Series books emphasize complex, practice-oriented problems in order to help students develop the skills of recognizing issues and analyzing provisions of the Internal Revenue Code and regulations that they will encounter in practice on a daily basis. Course materials, including the problems, are designed to encourage students to learn the law by carefully studying the applicable sections of the Code and regulations. Excerpts from cases, administrative pronouncements, and secondary sources are limited to those appropriate to learning how to understand and apply the Code, the regulations, and non-statutory doctrines such as business purpose and step transaction. Skills & Values Series

The Skills & Values Series materials are subject-specific, practice-oriented books and corresponding online content supported by LexisNexis® Web Courses. Together, the book and the Web Course are designed as a tool for professors to teach practical and analytical skills that can help students serve future clients competently, skillfully and in an ethical manner, and also help students self-assess their work.

Each of the Skills & Values Series books has a corresponding Adoption Model Web Course for you to review and a special code to access that Web Course. When you adopt a Skills & Values title for your class, another Web Course pre-populated with all of the materials included in the Adoption Model Course will be created for you and your students to use.

Select books in this section noted with SVC are available for purchase by individual chapter (PDF format) from the LexisNexis Store for $9.99.
