

LAW PreDiscovery™ Import and Export Formats

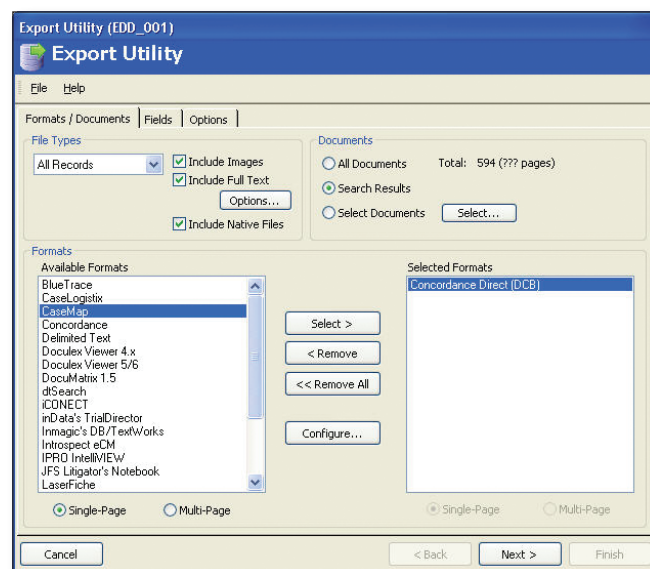

LAW PreDiscovery™ software supports hundreds of import and export file types

LAW PreDiscovery™ allows you to import a wide variety of file types—from the more common file formats such as Word documents, Excel® spreadsheets, PDFs, image files, mailstores and compressed files, to the more uncommon file types such as drawing files, media files and much more.

Once you have pre-reviewed the data and culled down your document set, it's a snap to create custom export files for further review in popular litigation review and fact management applications such as Concordance® and CaseMap® software.

- Concordance load files
- Concordance database (DCB)
- CaseMap
- BlueTrace
- CaseLogistix
- Delimited Text
- Doculex Viewer 4x
- Doculex Viewer 5/6
- DocuMatrix 1.5
