

LexisNexis® MedMal NavigatorSM

Getting Rave Reviews

Spending too much time preparing and researching your medical malpractice cases? *We have just the solution—and your peers and colleagues agree!*

LexisNexis® MedMal NavigatorSM is your single destination for preparing and researching your medical malpractice cases. The MedMal NavigatorSM interactive dashboard uses highly sophisticated technology to combine industry-leading medical and legal research content with a user's case facts, helping attorneys quickly and easily:

- Access medical research information specific to their case
- Understand the medical issues and analyze the standard of care
- Locate the right expert for their case plus obtain the expert's case history
- Assess case value, and more!

“There is no other product like MedMal Navigator on the market today that brings everything together. It’s comprehensive and covers every aspect of a medical malpractice case that I can think of. Once my firm saw the tool, the purchase decision was a no-brainer. Once you sit down and see the tool, you’ll see that your firm needs it too.”

—Sam K. Allen, Clore Law Group LLC

What I like most about the database is that you can navigate through the database quickly and efficiently, which is important in the legal world. This database allows you to “get in, get what you need, and get out.”

—Associate, New York law firm

“With MedMal Navigator, we were able to consolidate most of our third-party services that we would typically rely on. Now we use this one tool almost daily to conduct medical research, legal analysis, case assessment and expert searches. Aside from the tremendous time savings my firm has realized, we have already seen ROI, after just two months of use. The tool is that comprehensive and that good.”

—Sam K. Allen, Clore Law Group LLC

From what I can tell, **it makes available every possible resource I might need when considering a new case, or when preparing a case I’ve taken. I found the system to be very intuitive. Depth of content, ease of use, speed of use, accuracy of content...** **I was very impressed with this tool and have not seen anything like it from a competitor.**

—Associate, Texas law firm

The intuitive and innovative MedMal NavigatorSM “dashboard” interface takes you from initial case intake to trial

By organizing critical content and tools into key task-based areas or “pods” and employing leading-edge interactive Q&A technology created with the help of medical professionals, MedMal Navigator makes it easy to find the on-point information you need.

“With the medical research pod, I can get just the document or article I need without having to dig through pages of Google™ results or big, expensive textbooks. MedMal Navigator automatically boils the content down for me. **The cost and time savings that the medical research pod provides is huge.**”

—Sam K. Allen, Clore Law Group LLC

“Since we began using MedMal Navigator, we were **able to stop using our expert locating agencies** to locate experts, which cost as much as \$1K per search. Now, our primary go-to source is this tool. **MedMal Navigator finds most of the experts we need** and captures their background information, which is very helpful. **This pod alone has saved my firm tremendous time and expense. We’ve already seen ROI in two months.**”

—Sam K. Allen, Clore Law Group LLC

“Now attorneys **can access medical research materials in one place**; even those materials that are much harder to find. Attorneys can also determine in 20 minutes versus 20 days if a case worth taking on. **This tool is a powerful, one-stop solution for malpractice attorneys.**”

—Darren W. Dummit; Dummit, Buchholz & Trapp

“I found the **value assessment, expert witness research, and party research extremely helpful** and convenient. This provides many useful tools that are not offered by other companies.”

—Associate, New York law firm
