LexisNexis® State Net®

The Power to Know, the Power to Act and the Power to Connect

LexisNexis® State Net® is the premier online legislative and regulatory intelligence and tracking application for the 50 States and Congress. State Net® allows clients to monitor and manage pending legislative and regulatory activity so they can confidently assess the impact to their organization, influence proposed matters, prepare for upcoming changes and deliver meaningful information to their stakeholders. For over 40 years, State Net has delivered high-integrity data, customizable results-oriented reporting and exceptional client support for corporations, trade associations, law firms and government entities.

The Power to Know, Act and Connect

State Net has unique capabilities to help you collect, analyze and share critical intelligence:

- Proprietary search tools and hands-on issue screening to efficiently target relevant bills & regulations

- Tracking capabilities enable you to store, analyze and segment legislative and regulatory activity

- Automatic notification when bills or regulations you are tracking move or are scheduled for hearings

- Communications tools that seamlessly tailor, automate and deliver critical information to your stakeholders.

- One-click access to an expanding library of unique content and resources

Legislative Reporting

State Net delivers comprehensive legislative information via robust, easily accessible tools that put you in touch with the latest action in every capitol. We identify and decipher the key elements of every measure, action and deadline in all 50 states, the District of Columbia and Congress.

- Access to 150,000 bills, legislative profiles, executive orders, ballot measures and resolutions.

- All versions of text provided with comprehensive bill summaries and legislative histories.

- *Bill Resources* and *State Resources* help you analyze the impact and assess the viability of proposed legislation.

Regulatory Reporting

Regulatory information is difficult to obtain, hard to decipher and frustrating to manage. With State Net regulatory reporting, the key element of the service is the people who create and deliver it every day. Their expertise and hard work bridges the gap between raw data and useful knowledge.

- Access to proposed and adopted regulations covering over 7,000 state agencies.

- Comment Deadlines and agency contacts provided so you can submit feedback before language is finalized.

- State Net ID numbers are assigned so you can store, catalog and track regulations.

Standard Features

- *Email Alerts*—highly customizable and tailored to each user's preferences.

- *Code Links*—direct, highly reliable links allow you to see how new bills will affect current law.

- *Sponsor & Committee Profiles*—include biographies and contact information.

- *Visual Text Compare*—quickly identify critical text changes in two bill versions.

- *X-Press Alerts*—know when critical bills move throughout the day with mobile-friendly updates.

- *Quick Click*—manage bills and regulations with a simple click.

- *State Net Mobile*—stay connected to critical bills, hearings and legislators while you are on the go.

- *Votes & Voter Scorecards*—score, analyze and share the effectiveness of legislators for issues that matter to your organization.

Premium Offerings

- *Committee Hearings*—provide advance notice when your tracked bills are set for a hearing.

- *State Net iTrac*—publish and deliver critical legislative and regulatory updates to your stakeholders with a Web page that is updated daily.

- *Issue Screening*—our research analysts search for and identify bills and regulations impacting your most important issues to help save you time.

- *Legislative Outlook*—focus on bills that are likely to move with legislative forecasts and key prognosis indicators.
