

Why use SmartLinx Comprehensive Business Reports?

Generating a SmartLinx® Comprehensive Business Report is the best way to obtain a complete picture of a business. It **searches virtually all the diverse public records LexisNexis® has online**. It **provides an easy-to-browse report that links all available public records information** found on a business nationwide—just click and move to data on company property, bankruptcies, executives, judgments and liens, UCC filings, Internet domains, industry and company codes, business associations, and more. SmartLinx also **conducts more than 200 checks to alert you to potential issues**.

The vast coverage of the LexisNexis Public Records collection gives you sources not readily available from other providers or through the open Web. And the sophisticated linking and reporting technology of SmartLinx can help you **spot connection that might otherwise remain hidden**. Imagine the difference this could make to your case, transaction or research!

Here's how to generate a SmartLinx Comprehensive Business Report via Lexis Advance®:

- ① Select **Public Records** from the pull-down list.
- ② Click **Comprehensive Business Report**.
- ③ Fill in the facts you know—company name, city, state, ZIP, for example—to increase the likelihood of your best results displaying first. The search form gives you fill-in-the-blank simplicity and true searching power. You can mine data in ways that are impossible with Boolean searching.
 - **Company Name:** LexisNexis proprietary data-linking technology recognizes similar names, spelling variations, subsidiaries, branches—even typos—and correlates the right information to the right business entity.
 - Check the **Strict Search** box to locate business names that exactly match the name entered in your search.
 - **Executive/Business Associate Name:** Find similar-sounding last names and first nicknames automatically by checking those boxes on the search form. Our linking technology can find connections among business people who don't share public records.
- **FEIN Number:** You only need one FEIN to find a business's report.
- **Address:** Know the address but need details on who is doing business there? Just enter the address, city/state/ZIP. You can also select the **Comprehensive Location Report** option.
- ④ Click **Search**.
