

Reduce default rates by connecting with your students through the powerful people-finding tool:
LexisNexis® Comprehensive Person Reports—SmartLinx®

LexisNexis® Comprehensive Person Reports—SmartLinx® gives you new power to see connections between people, businesses, locations and assets so you can find your students faster to provide effective delinquency and default counseling.

SmartLinx is a powerful, easy-to-use investigative tool. A single search combs through billions of public records, finding names, addresses, phone numbers and other information and establishing logical connections among people, locations and businesses.

SmartLinx® provides unique power to:

- Start your analysis with as little or as much information as you have
- Quickly locate connections between people, businesses, assets, and locations among billions of public records
- Easily link to the original source document to verify the information
- Instantly identify potential associations with parents, grandparents, neighbors and much more

SmartLinx quickly and accurately locates and associates links between people, businesses, assets and locations that would normally take hours or days to gather and cross-reference.

It analyzes each record to determine that the linked entities—regardless of possible spelling, formatting or other variations—are actually the same.

As a result, you may be able to:

- Provide your students with information to help avoid falling into the debt trap
- Reduce student loan defaults
- Avoid limitations on participation in the loan programs due to excessive cohort default rates (CDR)
- Let your future students benefit from Title IV Student Financial Assistance Program
- Increase your school's success by having an effective Default Prevention Program

The screenshot shows the LexisNexis SmartLinx search interface. At the top, there are tabs for 'People', 'Businesses', 'Location', and 'All Searches'. Below these is a 'Make this my Start Page' link and a 'Coverage' link. The main search area is titled 'Enter information in at least one field below.' and contains several input fields: Last Name, First Name, Middle Name/Initial, Link ID, SSN, Date of Birth, Age Range (with 'To' and 'From' dropdowns), Alias Last Name, Relative's First Name, and Other Relative's First Name. There are also checkboxes for 'Strict Search (Find only exact names and addresses)', 'Find similar-sounding last names', and 'Find nicknames of first name'. On the right side, there are fields for Street Address, City, State (a dropdown menu set to 'All Available States'), Zip Code, Previous City, Previous State (a dropdown menu set to 'All Available States'), Other Previous State (a dropdown menu set to 'All Available States'), Radius (a dropdown menu set to '30 Miles'), and Telephone. At the bottom right, there are links for 'Save Search', 'Search', and 'Clear Form'. At the very bottom, there are two lines of text: 'Your DPPA Permissible Use: No Permissible Use' and 'Your GLBA Permissible Use: No Permissible Use'.
