

# LexisNexis® Employment Screening – Business Edition

Helping small to mid-sized businesses make faster, better informed decisions

Business like yours are the backbone of our nation's economy, responsible for generating 60 to 80 percent of net new jobs annually, according to the U.S. Department of Labor.

At LexisNexis Screening Solutions, we are dedicated to supporting your success with LexisNexis Screening Solutions Business Edition—an innovative screening solution that delivers more of the in-depth information you need to make clear, confident hiring decisions, at a price you can afford.

## Employment screening, your way

You want an efficient employment screening solution that gives you exactly what you need—nothing more and nothing less. With LexisNexis Screening Solutions Business Edition, you get just that.

You gain instant access to the industry's most expansive screening tools, in an a la carte format. This gives you the flexibility to pick and choose only the products you need, use them as often or as little as you like and only pay for the services you use. As your needs evolve, you can easily expand your program with our vast product selection, eliminating the future hassle of switching to a larger provider.

## Fast and easy, yet incredibly powerful

LexisNexis Screening Solutions Business Edition is a user-friendly, self-serve Web interface that gives you 24/7 access to our products and your results, along with a wide range of flexible account management features.

- **Easy, fast online ordering and result delivery.** At your convenience, you can instantly order screening reports or check your results at any time, from any computer with Internet access. In many cases, results are returned within minutes, making it an ideal resource for smaller businesses with efficient hiring cycles.
- **Industry leading technology and data.** Gain access to our advanced technology, which intelligently links and connects data across millions of files to give you the most relevant, in-depth results, and our comprehensive data—widely recognized for its extensive depth and breadth.
