

LexisNexis® Contractor Screening Solutions

For the Chemical and Petrochemical Industry

Whether your company is a multi-national, publicly traded organization, or a contracting firm responsible for providing employees to plant owners, you need a background screening program that addresses your unique needs, as well as the broader regulatory requirements of the Chemical and Petrochemical Industry.

Put Qualified Contractors to Work Faster than Ever Before

A “Best-in-Class” Solution

At LexisNexis® Screening Solutions, we have the unique distinction of working with leading, best-in-class employers in the Chemical and Petrochemical Industry. Based on our in-depth understanding of their needs, we deliver comprehensive, efficient background screening solutions designed to shorten the hiring cycle and decrease screening costs, while improving workplace security and industry compliance. Together we can strengthen and streamline your overall human resource and security efficiencies by integrating a robust background screening process into your existing hiring program and site access process.

A strong, industry-focused background screening program can help you:

- Maintain critical compliance requirements in a rapidly evolving legislative environment.
- Protect your employees, your workplace and your company assets, as well as the global communities in which you operate.
- Mitigate your legal risk associated with negligent hiring.
- Easily accommodate high-volume hiring peaks, in which you must screen and hire a large volume of workers for specific projects at remote locations.
- Protect your brand and corporate image in today’s highly-competitive, global marketplace.

Key Benefits

- **Place qualified workers on the job site faster.**
Our highly-specialized service puts you in charge of the screening package to be performed and the contractors in charge of data entry. Ensuring correct packages are ordered the first time speeds up the hiring process to help you put qualified people to work faster than ever before.
- **Save money with reduced pricing.**
Access some of the most competitive pricing available in the market to reduce your administrative costs without compromising quality of service.
- **Quick sign up with an easy, user-friendly process.**
You can sign up online and begin ordering screenings within a day.
- **Comply with key industry regulations.**
Our service is fully compliant with Chemical and Petrochemical Industry regulations (such as CFATS), as well as requirements for the employment screening industry, including the Fair Credit Reporting Act (FCRA).
- **Access a stable, client-focused service.**
Unlike other providers, we have the dedicated resources to easily accommodate volume spikes due to acquisitions or seasonal hiring peaks with no turnaround delays or service interruptions.
- **Strong industry expertise and program support.**
To deliver the highest quality of specialized service, we have made substantial investments to build a dedicated team that understands the unique hiring and onboarding procedures within your industry.

LexisNexis® Screening Solutions Your Single-Source Provider

At LexisNexis, we give you integrated solutions that help you address specific challenges to maximize your buying power and enhance your overall organizational success.

Using our extensive industry experience and dedicated service model, we can help you create a flexible screening program that achieves multiple goals, which can include:

- Delivering direct cost savings
- Accelerating your screening process
- Utilizing a platform designed specifically for the contractor organization and relationship
- Implementing industry-specific best practices
- Ensuring long-term scalability with our industry expert investment

Contractor Screening Made Simple

To make your job easier, we offer a screening solution that is fully integrated with your local area safety councils to provide quick ordering capabilities, fast online results and status updates. We can also provide a contractor ordering platform if needed.

- Sign up electronically and start ordering searches the same day.
- Searches are ordered directly from the safety council Website, with the results securely delivered online to your LexisNexis account.
- Our proprietary search technology uses automation to offer fast report turnaround.

Reciprocity—A Unique Industry Service

All of our Background Check Graded (BCG) screens are reciprocal and compliant with Safety Council Security Consortium (SCSC) programs. Because we are an approved SCSC partner, our screenings are valid and transportable for up to 24 months. This allows contractors to start working faster by giving them immediate access to results of reciprocal searches at a significantly reduced price.

Comprehensive Solution Set Simplifies Your Screening

Our specialized solutions make it easy to implement a standardized screening process for contractor employees that help meet CFATS (Chemical Facility Anti-Terrorism Standards) and other legislative requirements.

Background Information

Specific components of our industry-compliant package includes:

- Social Security Number Verification
- 7-year County Criminal Background Check
- Motor Vehicle Report
- Office of Foreign Assets Control (OFAC)
– Results graded to industry-standard matrix “00”–“07”*

*ARSC (Association of Reciprocal Safety Council) Background Graded Logic package support. Results are graded to ARSC standards with a 00-07 summary result. Our PetroExpress package allows owners and non-ARSC safety councils to offer a faster package backed by the strongest criminal database in the industry.

Drug Testing

LexisNexis Screening Solutions offers the latest in instant testing with our 11-panel drug test for pre-access screening as well as random and return to work programs. Advantages include:

- Faster decisions as drug results appear on the same screen with your summarized background information results so you can quickly ascertain if the contractor can access the job site.
- Comprehensive services available as alcohol testing is also supported. Laboratory confirmation of non-negatives and MRO services are included as well.

Employment Eligibility Verification Services

Meet federal contract requirements for new contracts authorized in 2010 by using our electronic I-9 services with federal e-verify connectivity.

We will help you comply with CFATS Surety Section 12 standards by ensuring that the workers on your job site are authorized to work in the U.S.

Integration Services

Our dedicated integrations team will work hand in hand with your technology resources to integrate with an existing:

- Learning management or training system
- Gate management or visitor management system
- Safety council order placement system
