NEWS & ANNOUNCEMENTS

File & Serve Feature Spotlight: Beyond eService: Alternative methods of Service on File & Serve

In addition to eService, File & Serve offers U.S. Mail and Fax Service*, as well as the ability to send documents via email and fax to Additional Recipients.

File & Serve is proud to be a leading provider of electronic service to Courts, firms and parties across the nation and we recognize that firms may need to send some documents that cannot be eServed. To meet this need, File & Serve has always offered the ability to serve non-member attorneys and unrepresented parties via U.S. Mail and/or fax. In many litigations and Courts, this feature is available directly from the Service tab in the Filing & Service room.** U.S. Mail and Fax recipients are usually listed on your service list with the other case parties and may be selected individually by placing a checkmark in the checkbox next to the party name, or by using the "Select All" checkbox at the top of the service list.

Conversely, you can also choose NOT to select parties who are listed as U.S. Mail or Fax recipients. This is also accomplished via the Service tab. On the right side of the service list is the "Method" column. Click on this list once to alphabetize the list by service method and then click on it again to reverse sort the service method. This will place the U.S. Mail recipients at the top of the list, followed by the Fax recipients. If you've selected the "Select All" checkbox at the top of the screen, then simply uncheck the checkboxes next to any party with a U.S. Mail or Fax service method type. If you are checking individual checkboxes, then these parties will be easy to scroll past.
