# USING SEARCH COMMANDS AND CONNECTORS AT LEXIS ADVANCE®

Lexis Advance® lets you use advanced search commands. If you're comfortable using search commands and connectors—! **and** \* to truncate words and **W/n, OR, AND, &**, etc., to connect search words and phrases—you can use these special commands to develop Lexis Advance searches. Here's what you need to know:

## LEXIS ADVANCE AUTOMATICALLY INTERPRETS SEARCH COMMANDS

Just enter your words and commands in the Lexis Advance Red Search Box, e.g., ENTER: *drone and commercial W/10 deliver!*. **Commands are not case-sensitive**, i.e., enter AND, And or and.

## BROADEN W/N CONNECTORS

While a Lexis Advance search ignores certain “noise words” added to your search, it **counts all words** in results documents **for the purpose of determining proximity**. So broaden your W/n connector. In other words, consider W/10 instead of W/5. For W/p and W/s, consider W/75 or W/25 respectively.

## SEARCH LEXIS® WEB SEPARATELY

Only the AND and & connectors work. The other commands do not operate in web documents.

## LET THE ADVANCED SEARCH HELP YOU

For help selecting connectors, select the **Advanced Search** link above the Red Search Box to access Advanced Search forms, which provide fields that help you use the right connector.

## WHEN MORE THAN ONE CONNECTOR IS USED ...

Lexis Advance acts on the connectors in this order:

- OR
- Proximity connectors (W/n, /p, near/n, etc. See next page.) from the smallest to the largest number value
- AND (You can use & instead of AND, except in legal phrases.)
- AND NOT or BUT NOT

For example, you ENTER: *bankrupt! /25 discharg! AND student OR college OR education! /5 loan.*

First, Lexis Advance creates a unit of *student OR college OR education!*. Next Lexis Advance joins *loan* with *student OR college OR education!* to create a unit. Then *bankrupt! /25 discharg!* is joined to create a second unit. Finally AND (or &) operates last, joining the two created units.

## COMMON LEGAL PHRASES

The Lexis Advance service automatically recognizes many common legal phrases, e.g., *limited liability partnership, summary judgment, and search and seizure*. However, if you want to be sure any phrase you're searching is recognized, enclose it in quotation marks, i.e., ENTER: *"right to work."*

## Here's an overview of Lexis Advance commands:
