Find Influential Cases with Ravel™ View

Quickly identify the most valuable case law in your search.

See how cases connect and which are the most influential through Ravel™ View, now available in Lexis Advance® search results. Quickly identify the most influential cases by court level, citation frequency and Shepard's® treatment, helping you find the strongest cases to support your position.

SHOW RAVEL VIEW IN CASE SEARCH RESULTS.

Select the citation map icon in the upper-right corner of case search results. (Note: Ravel View is not the default display.)

UNDERSTAND CASE CHARACTERISTICS.

**Target cases**
Select a circle in Ravel View to target a specific case and display citing relationships between other cases in your result set. You can further assess cases to target by using Ravel View to identify relationships between court level, timing and relevancy.

**Shepard's Signal™ indicators**
Select a case from the results list on the right to display the network of citing relationships for it. Then hover over the cases that cite it to quickly see the Reason for Shepard's Signal™ indicators.
GET TO THE SOURCE WITH REPORTER IMAGES FROM RAVEL.

Access more than 6 million reporter images dating back to the 1670s in the Lexis Advance About This Document section.

- Access exclusive reporter images that are not available digitally through other publishers.
- Check the pinpoint cites and quotes from a note or comment in the original court document.
