LexisNexis® | *Regulatory Compliance*

Channel Newscast
April 2021 – Edition 4

LexisNexis® | *Regulatory Compliance*

Table of Contents

Introduction

Welcome to the LexisNexis Channel Partner newscast, a regular update on what is happening in the world of LexisNexis' Regulatory Compliance solution.

We will provide our channel partners with advice on what's happening with our existing content offering, any future changes that we're considering, and what we're doing to promote the Regulatory Compliance solution out in the wider world.

The newscast will be sent to our channel partners on a monthly basis, after the channel partner forum, so you can stay up to date with the latest topics under discussion.

Process Review – Test Results

<u>Organisations registered for testing</u>

Number of Partners: 4

Number of Customers: 6

Issues or queries during testing:

1. Test data not flowing through in the API.

Outcome: resolved and testing continued with the testing period extended to account for time lost.

2. Request for additional test data.

Outcome: Additional test data was created and test data document updated and circulated to all registered testers.

Results (Confirmation – verbal and/or written)

- 2 passes from partners.
- 1 pass from customer.
- 1 conditional pass from customer*.

Not all registered testers came back with their test results.

*The conditional pass from the customer was due to the Historical Notes field in the Updated Obligation omitting the Asset ID of the Action Required Alert. This is confirmed to be an error at the test data creation stage, but it is within the Standard Operating Procedures for obligation updates so no further action at this point.

Process Review – Post Commencement

Commencement Date: 13th April 2021.

13th April 2021 – 10th May 2021 inclusive

- Only FYI and Action Required Alerts will be published.

- No obligation updates (New Obligations, Updated Obligations or Archived Obligations) will be published until 11th May 2021.

On 11th May 2021

- A News Alert at the Topic/Sub Module level will be published if there were obligation updates for that Topic/Sub Module.

- All obligation updates will be published and linked to the News Alert.

Openresty configuration – banned keywords

Included again in the April edition and reminder that implementation will be in May 2021

In our servers we have openresty configuration to prevent the system from being crawled by unnecessary robots. This is done by filtering by the requester's user agent.

We have upgraded the version of that openresty configuration and would like to expand the list of keywords to include:

```
360Spider                              Curious
80legs.com                             Custo
Abonti                                 CWS_proxy
AcoonBot                               Default\ Browser\ 0
Acunetix                               diavol
adbeat_bot                             DigExt
AddThis.com                            Digincore
adidxbot                               DIIbot
ADmantX                                discobot
AngloINFO                              DISCo
Antelope                               DoCoMo
Arachni                                DotBot
AspiegelBot                            Download\ Demon

We would like to ask that you do not include any words from the above list in your user-agent or if you currently have them to change it to something else.

Marketing & Events

On the 1st of April, LexisNexis hosted a webinar in conjunction with Dudley Kneller, Partner at Gadens.

The title of the webinar was 'To pay or not to pay – the rise of ransomware in 2021'. This webinar outlined the increase in ransomware attacks in 2020-2021 and highlighted how organisations are managing this cyber threat in Australia and overseas.

To access the recording, please click [here](#).

Channel Partner Forum – April 2021

The April Channel Partner Forum was held on Wednesday 14th April.

The next Channel Partner Forum is scheduled for Wednesday 19th May at 11am.
