MODULE CONSOLIDATION AND ENHANCEMENTS UPDATE	5
CHANNEL PARTNER TECHNICAL FORUM – OCTOBER 2021	6

Introduction

Welcome to the LexisNexis Channel Partner newscast, a regular update on what is happening in the world of LexisNexis' Regulatory Compliance solution.

We will provide our channel partners with advice on what's happening with our existing content offering, any future changes that we're considering, and what we're doing to promote the Regulatory Compliance solution out in the wider world.

The newscast will be sent to our channel partners on a monthly basis, after the channel partner forum, so you can stay up to date with the latest topics under discussion.

Risk and Compliance Module Checklist

- ISO 37301 is an international standard that assists organisations to establish, develop, implement, maintain and improve an effective Compliance Management System (CMS).
- An ISO 37301 compliant CMS represents more than best practice for compliance risk management. It is the yardstick against which the compliance risk mitigation processes of companies will be measured in future to determine their success as an organisation.
- Our latest module, Risk and Compliance covers many of those standards. To promote this module, we are going to launch a Risk and Compliance Module Checklist campaign.
- We will share this checklist with our contact community, GRCI, RMIA and GIA respective databases. We will also share it on Social Media.
- You are welcome to share this checklist to your networks. To access, click here: <https://www.lexisnexis.com.au/en/insights-and-analysis/research-and-whitepapers/2021/complimentary-risk-and-compliance-checklist>

If you would like to collaborate on a campaign, feel free to contact Alex Smirniotis at alexander.smirniotis@lexisnexis.com.au
