

Frequently Asked Questions

Who is Lexis Create+ for?

Lexis® Create+ is designed for legal professionals who draft, review or edit documents. Whether you're in a law firm or an in-house legal team, it helps improve efficiency and reduce the risk of errors.

What is Lexis Create+?

Lexis Create+ is a comprehensive Legal Drafting Tool embedded in your Microsoft Word 365 toolbar that brings your firm's expertise, knowledge and content, together with the cutting-edge generative AI of Protégé™ and authoritative LexisNexis legal data, into a single smart workflow.

How does Lexis Create+ work?

Lexis Create+ provides a drafting environment within Microsoft Word that is integrated with your firm's internal knowledge. It streamlines document creation with smart automation, clause suggestions, and AI-powered tools to improve workflow and reduce drafting time.

How does Lexis Create+ streamline drafting in Microsoft Word?

Lexis Create+ centralises your drafting workflow into your Microsoft Word document. By giving you direct access to your internal firm documents, your preferred clauses, trusted LexisNexis content, and generative AI tools in the one place, you don't need to leave your document until it's done.

What content can I access through Lexis Create+?

Depending on your subscription, with Lexis Create+ you build your documents by accessing your LexisNexis content, including Practical Guidance, Forms and Precedents, and CaseBase documents, your firm's internal content and documents (where DMS integration is available) and your private and shared clause libraries.

What are the key features of Lexis Create+?

- **Start, research, and finalise** your document completely within MS Word 365, using your firm's expertise and knowledge, while being assisted by the powerful generative AI and authoritative content from Lexis+ AI® with Protégé™.
- Easily identify trusted clauses and client-specific language to draft new agreements or contracts quickly, all while maintaining your firm's unique style.
- Generate new clauses and language to optimise your position, then efficiently edit your draft with redlining.
- Check your document for errors, omissions, and inconsistencies, then secure your documents, scrub metadata, redact, convert to PDF.
- Finalise and deliver the final document for signing with the DocuSign integration.

How much does it cost?

Pricing for Lexis Create+ varies based on your organisation's needs. [Contact our team](#) for a tailored quote.
