

Legislation

NZ Statutes and Legislation tools can now be accessed from the Explore pod (1) on the home page. This feature will give you quicker access to Legislation and you can now search across Legislation Citator, find the most popular Legislation page and pin most used Acts and links to the Statutes homepage. Please note that the "Recent Acts" page and the "New Zealand Gazette" page are still in development, so no content will be available for these during Alpha.

Legislation Citator

LexCite™ Legislation Citator provides comprehensive coverage of full text legislation with an integrated citator. This customer-driven innovation is available now on Lexis+. Each Act and Provision has its own cleverly structured citator report – consolidating LexisNexis references, cases citing and a legislative history. Each report follows the same clean design so you can get to the information you need more quickly and easily.

The (2) **Overview** gives key general information about the item—with links directly through to any referenced items. (3) **Cases** displays a list of cases citing the legislative item. Catchwords help you quickly get to the cases most relevant to your research. (4) **Secondary Materials** gives an index of publications that cite the legislative item, broken down by category—Are you most interested in the

Laws of New Zealand? Detailed commentary? Journal articles? Textbooks? Even if you don't subscribe to the referenced material, you will still be aware of what is available.
(5) **History** provides easy to view summaries of amending legislation.
