Drafting Notes

As drafted, clause 16 of each of precedent: Joint venture agreement—deadlock (50/50) and precedent: Joint venture agreement—majority/minority provides for a three-stage deadlock resolution procedure. The first stage is reference to the shareholders' respective chairmen, the second stage (if the first stage process does not work) is a Russian roulette procedure, and the third stage (if the Russian roulette procedure is not used) is liquidation of the company. The provisions of alternative 1 should be inserted into the clause.
