Uncovering Business Opportunities: CourtLink® Strategic Profiles

CourtLink Strategic Profiles help you gain insight into a public company's litigation history and attorney experience on a particular nature or suit, and map out litigation trends. The CourtLink service searches the most in-depth historical civil online database of court records covering up to 29 years of cases to pinpoint relevant information and provide you a strategic profile with easy-to-read graphs, data charts and facts.

Within any of the CourtLink Strategic Profiles, you'll find interactive links that take you to deeper information on relevant cases and to the underlying dockets and documents. You get greater insight into attorney arguments and strategies and judicial rulings.

Judicial Strategic Profiles

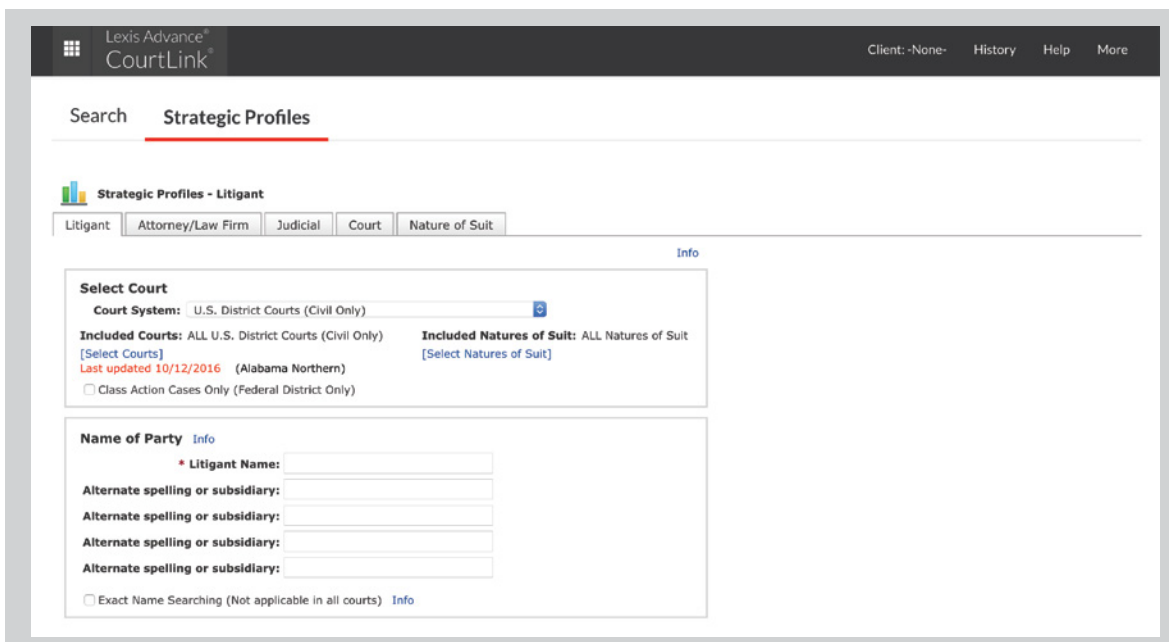

Uncover a judge's experience in a case type. Drill down into attorneys who have argued the case type in front of the judge in the past. View dockets and order motions, pleadings, etc., to see the legal tactics the judge found compelling.

Attorney Strategic Profiles

See a sampling of an attorney or law firm's experience in a specific nature of suit or in front of a particular judge. View associated dockets to see patterns in legal tactics employed and to identify case resolution history. To ensure attorney profiles reflect all relevant cases, start first with a case type profile and update all dockets where defense counsel is not present.

Litigant Strategic Profiles

Gain meaningful insight into a public or private company, subsidiary or individual's litigation history. View a directional overview of litigation activity by nature of suit and geography. Determine which law firms have represented the company in the past. Drill down into the associated dockets and supporting documents to see patterns of settlements, mediation, etc. Be sure to update all cases identified at the bottom of the page as having "No defense counsel assigned" to ensure you see the most up-to-date view of competitive and shared activity.

The screenshot shows the Lexis Advance CourtLink interface for Strategic Profiles. The top navigation bar includes the Lexis Advance logo, the CourtLink logo, and user options: Client: -None-, History, Help, and More. The main heading is "Strategic Profiles" with a "Search" button.
