

Amplify the Impact of Analytics

Experience the Combined Power of LexisNexis®
Data and the Snowflake Data Cloud Platform

Unlock a wealth of valuable information with our LexisNexis® Premium News Data, covering an extensive range of news articles from 2018 to the present. This comprehensive dataset provides you with a reliable source of up-to-date news insights, offering added context for internal data.

Extensive Coverage: Access a vast collection of news articles from a diverse selection of sources. Stay informed about global events, industry trends, company updates, legal matters, and more.

Timely and Current: Stay up to date with news developments as our dataset is continuously updated with the latest articles. Leverage the freshest information to stay ahead in your field.

Reliable Source: Powered by LexisNexis, a trusted provider of legal and news content, you can rely on the depth and breadth of our news data to capture a more complete view of what's being said in the media. Make confident decisions based on well-sourced information.

Advanced Search and Filtering: Easily navigate through news data using advanced search and filtering options. Find specific articles, refine your results by date, source, keyword, or category, and extract valuable insights quickly and efficiently.

Comprehensive Metadata: Enhance your analysis with rich metadata accompanying each article, including publication details, author information, categories, and more. Gain deeper insights and understand the broader context of news events.

Whether you are a researcher, analyst, journalist, or business professional, LexisNexis Premium News Data offers an indispensable resource for extracting meaningful insights from the world of news. Stay informed, make data-driven decisions, and gain a competitive advantage with this comprehensive dataset.

LexisNexis® Premium News Data Listing

powered by  snowflake®

Ready to harness the full potential of data analytics? Take advantage of a game-changing collaboration that merges matchless LexisNexis® Premium News Data with the Snowflake Cloud Data Platform. Together, we empower organizations to extract meaningful insights from timely, relevant data, enabling informed decision making across your enterprise.

Accelerate Insights: Realize the true potential of timely news data to add context to your analyses faster than ever before. With Snowflake, you can expedite analytics and make informed decisions in real-time.

Simplify Data Analytics: Say goodbye to complex data transformations. By leveraging enriched LexisNexis Premium News Data, powered by Snowflake, you avoid manual data wrangling, saving valuable time, effort, and resources.

Enhance Operational Efficiency: Gain a competitive edge with streamlined data analytics. Snowflake provides access to ready-to-query data, enabling you to optimize workflows, maximize efficiency, and extract value from relevant news data effortlessly.

Seamless Workflow Integration: Integrate LexisNexis Premium News Data data seamlessly into your existing views and workflows. Snowflake offers compatibility with over 80 third-party vendors, including Tableau and Alteryx, enabling a smooth and hassle-free experience, using the tools you already love.

Unrivalled LexisNexis news data combined with the Snowflake Data Cloud Platform means smooth sailing on your data analytics journey.

About LexisNexis Legal & Professional

LexisNexis® Legal & Professional provides legal, regulatory, and business information and analytics that help customers increase their productivity, improve decision-making, achieve better outcomes, and advance the rule of law around the world. As a digital pioneer, the company was the first to bring legal and business information online with its Lexis® and Nexis® services. LexisNexis Legal & Professional, which serves customers in more than 150 countries with 11,300 employees worldwide, is part of RELX, a global provider of information-based analytics and decision tools for professional and business customers.

About Snowflake

Thousands of customers deploy Snowflake Cloud Data Platform to derive all the insights from all their data by all their business users. Snowflake equips organizations with a single, integrated platform that offers the only data warehouse built for any cloud; instant, secure, and governed access to their entire network of data; and a core architecture to enable many other types of data workloads, such as developing modern data applications.

Note: This dataset is provided under a licensing agreement with LexisNexis, ensuring compliance with copyright and usage restrictions.
